

Var Group MFA and Conditional Access Quick Start

Join an immersive experience designed for security leaders and IT teams to strengthen your knowledge of Azure MFA and Conditional Access services and be deployed in your organization

Strengthen your security strategy with Microsoft

As your organization expands and evolves in its digital estates, with new apps, data and devices, having an integrated approach to security is more important than ever.

Designed for today's security leaders, the Var Group MFA and Conditional Access Quick Start focuses on the implementation of Azure AD Conditional Access and MFA services within your organization.

What you will get of the service

Focused service dedicated to your security needs.

Clarity on how Microsoft can help you improve your security situation.

Deploy Implementation of Azure AD Conditional Access, MFA and training on-the-job for his IT Team

"If security is made difficult, people could work around the problem. With Microsoft, we get native functionality, visibility into our operating environment, and simplicity for all employees."

Simon Hodgkinson, BP Group Chief Information Security
