

Var Group Modern Desktop Deployment Quick Start

Help IT transition to Modern IT.

We live in a time of incredible transformation. Digital transformation is coming and not slowing down. IT must be at the top of the table and control its own destiny in this transition, helping to drive the business as it evolves. We believe Microsoft 365 is the best way to both transform your organization and transition to the world of modern IT. Basically, a modern device running Windows 10 Enterprise and Office 365 Pro Plus, managed by the Enterprise Mobility and Security Suite (EMS), is the best way to use

Microsoft 365. With this combination, companies can harness the power of the cloud to simplify IT life, reduce costs and move to modern IT at their own pace. Employees have the best productivity tools to collaborate and get the job done.

◆ OUTCOMES ◆

This service is designed for customers taking their first steps in planning to deploy modern devices with Windows 10 Enterprise and Office 365 Pro Plus, EMS managed.. Our consultants will help build an environment to explore features, capabilities, understand new security

enhancements, explore deployment options and assess infrastructure dependencies
