

DATA RISK ASSESSMENT

Want to know where your biggest data security threats are?

Schedule a personalized Data Risk Assessment

Our assessments are 100% obligation-free and non-intrusive.

A dedicated engineer will do all the heavy-lifting and you'll get a comprehensive report that highlights at-risk sensitive data, flags access control issues, and quantifies risk - so that when you're asked what you're doing to prevent becoming the next cybersecurity headline, you're already ahead of the game.

SCHEDULE NOW

Join thousands of enterprises that **trust Varonis**.

WHAT WE DO

Our engineers will collect and analyze the metadata from your email, file systems, and directory services (AD, LDAP, NIS), discover and isolate in-scope infrastructure, and perform capabilities and environmental assessments. We'll build out a custom security assessment designed specifically for you: based on company needs, regulations, and configurations.

WHAT YOU GET

A detailed report based on your company data, analyzing risk, identifying strengths and weaknesses – and we'll help you fix real production security issues while we're at it.

The data risk assessment will summarize key findings, expose data vulnerabilities, provide a detailed explanation of each finding, and include prioritized remediation recommendations.

HOW IT WORKS

We outline your problem areas – wondering about global access? Exposed sensitive data? Stale data? We got this. We'll prioritize risk, and give you concrete steps to take to improve your data security.

NON-INTRUSIVE

We won't slow you or your system down. We can monitor millions of events per day without impacting performance.

FAST AND HASSLE FREE

Our dedicated engineers will do all the heavy-lifting for you: setup, configuration, and analysis – with concrete steps to improve your data security.
