

Custom Enterprise AI Chatbot

**Get a highly customized internal enterprise AI chat
without compromising security or compliance.**

For companies with specialized needs around:

SECURITY

COMPLIANCE

**DATA LOSS
PREVENTION**

BRANDING

**WORKFLOW
FUNCTIONALITY**

**APPLICATION
INTEGRATIONS**

Core Functionality

- Multiple AI models for optimal accuracy and comprehensiveness:
 - ChatGPT Open AI
 - Azure Open AI
 - Google AI (Gemini)
 - IBM Watsonx AI
 - Anthropic Claude
- Customized user interface design which can align with corporate brand style guidelines.
- Avoid lock-in with specific AI services and enable failover during outages.

Seamless User Experience

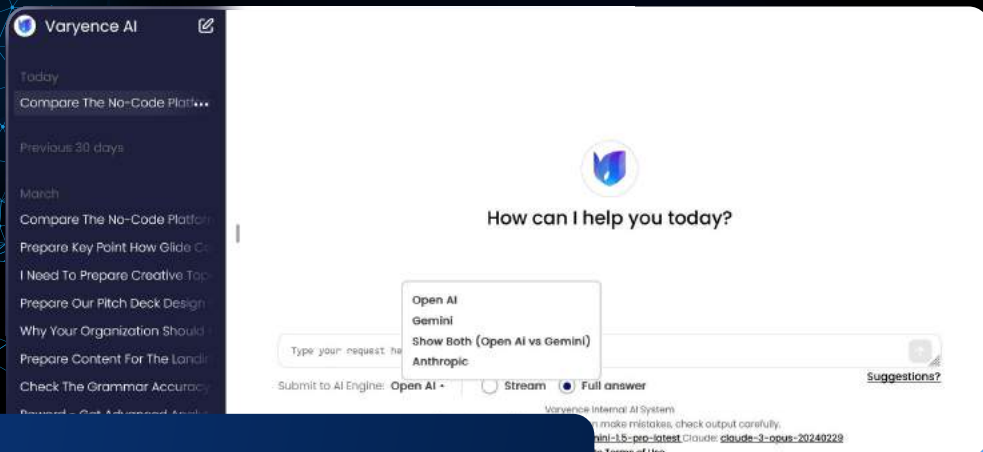

- Familiar ChatGPT type user interface and experience
- Integrate with existing authentication platforms (SSO) for a smooth user experience.
- We can customize to business needs

Security & Privacy

- Enterprise-grade security and data handling.
- Full ownership and control of your business data.
- Customized compliance settings to meet industry standards (SOC 2, HIPAA, GDPR).
- Restrict access based on Azure AD Conditional Access policies (geo-blocking, managed devices, role type, etc.).
- Authenticate users via Azure AD SSO (Single Sign-On) authentication.
- Additionally, can be customized with additional Data Loss Prevention (DLP) policies.
- Managed or self-hosted versions for maximum control and security.
- Customer prompts or data are not used for training models.

Benefits of Customized Enterprise AI Chat Deployments

- 1 Increased Data Protection and Compliance:**
Ensure adherence to data protection regulations and compliance standards.
- 2 Data Loss Prevention (DLP):**
Block sensitive data within prompts, such as proprietary source code and secrets.
- 3 Enhanced Employee Productivity:**
Streamline workflows and improve efficiency.
- 4 Scalability:**
Accommodate a growing workforce or increased chat volume.
- 5 Custom Compliance Reporting:**
Enhance monitoring of internal AI chat usage.
- 6 Reduced Security Risks:**
Implement robust security measures.
- 7 Custom Workflows:**
Trigger automation in other internal platforms based on specific prompts.
