Modern Work Platforms

Regardless of the Modern and Hybrid Workplace platform VENZO always tailor the assessment and implementation specifically to your needs - based on the VENZO approach

Transforming your work

Envision

- Assess your organizational and technical setup
- Decide on technical and business requirements within the specific technology
- Assist you in getting a full grasp of the possibilities within specific technology and platform through inspiration and best practice workshops

Onboard & Train

- Start onboarding and training users according to a business-aligned rollout plan
- Monitor and hand over the technical solution to IT admins and Help Desk staff
- Introduce ambassadors to drive local organizational anchoring

Plan & Configure

- Plan the project with roll-out, training workshops and system design
- Prepare the technical foundation
- Configure the integration with other systems or solutions

Drive Value

- We continuously track updates and revisit needs and requirements to ensure that they remain fulfilled
- Revisit needs and requirements to ensure that they remain fulfilled
- Ensure efficient operation and monitoring of the solutioned

Case Examples

**We use our best-practice experience
and expertise to create value with
your organization**

Global Pharmaceuticals Company: Calls & Interactive Meetings

A global pharma organization specializing in allergy medicine, realized the need for a modern meeting and collaboration platform during the COVID-19 pandemic. Their desire was to transition from Skype for Business to Microsoft Teams and get 2500 employees onboard ASAP to prepare for market disruptions and improve their digital capabilities.

VENZO Successfully Anchored the Microsoft Teams Transition by

- Utilizing the seamless Microsoft integrations for the technical implementation and optimizing it for their business needs.
- Following a four-step model for Teams training.
- Developing intuitive training material.
- Training super-users across the globe.
- Empower super-users to train end-users locally.
- Continuous stakeholder communication & alignment.
- Realtime monitoring of adoption rates were analyzed with BI tools. The knowledge was used for adjusting and directing the change initiatives to ensure a lasting and successful adoption.

Global Bio Tech Organization: Full-suite Collaboration Platform

A global bio tech organization specializing in cancer treatment, increasingly saw the need for a modern platform for digital collaboration to cope with the global work practices in a more productive fashion. Their desire was to implement the full-suite collaboration features of Microsoft Teams to reap the benefits of modern digital collaboration tools.

VENZO Ensured a Significant Increase in Collaboration and Productivity Benefits by:

- Easing and optimizing collaboration globally by facilitating tailored training for the end-users of the collaboration platform.
- Enabling smarter work practices with modern tools for team creation, project planning, communication and much more.
- Providing more freedom in terms of mobility for the employees since they can work from home with full productivity.
- Defining technical-, regulatory-, and governance recommendations to ensure compliance with Genmab policies and legislation.

Thank you.

We are looking forward to next meeting!
