Danish IT Consultancy: Modernized, Hybrid Meeting Rooms

A global workplace experience and facility management company needed a new collaboration platform with a contact center and reception system. Whereas the cooperation started with implementing and operating their Skype for Business, VENZO is now driving the process of migrating to Teams Calling. As such, for the past 8 years, we have delivered first class support with hosting, as well as 2nd and 3rd level support for the complete infrastructure, including a 24/7/365 service desk and operation.

VENZO successfully configured and deployed the meeting rooms by:

- Assessing the company's needs, preferences and culture.
- Designing the rooms to fit various purposes dependent on their size and décor e.g., some were better for workshops, others for seminars etc.
- Assist in choice of devices and configuring it in all rooms e.g. Surface Hub, Lenovo Hub and Logitech meeting bars.
- Training the users in optimal use of the rooms and their respective equipment.
- Evaluating and maintaining the solutions to ensure continuous fit to needs and usage.
- Analysing the use and driving adoption to increase the number of virtual meetings.

Hearing Aids and Headset Manufacturer: Implementation of New Meeting Room Devices

A global hearing aids and headset manufacturer wanted to make their meeting rooms better equipped for digital collaboration in several different countries. They required a partner with extensive technical knowledge within configuration of devices, as well as Office 365 features. VENZO was chosen, and responsible for establishing the foundation of new meeting rooms.

VENZO ensured a successful implementation of devices by:

- Understanding and help scoping the needs of devices
- Preparing Lenovo Smart Hub devices for the company's own employees to be equipped to install the devices in any of their operating countries
- Assist in guidance of roll-out in various countries and ensuring that they function in accordance with the company's wishes
- Handing over the operation and support of the solution to IT department
- Handing over the operation and support of the solution to IT department
