

Obtain the advantages of the modern desktop cloud solutions.

The nature of work has changed. Employees expect to work securely from anywhere, on any device. When their productivity tools enhance the quality and effectiveness of their work experience, they're happier, more valuable, and more likely to stay.

VENZO is on a mission to provide employees with empowerment, while also protecting the organization's vital IT assets.

At VENZO we utilize and combine the features from both Azure Virtual Desktop and Windows365 to ensure the *ideal Managed Desktops solution* for our clients.

Our solution provides full security of enrolled desktops and applications used for productivity.
