

APPLICATION MODERNISATION

Modernise Your Existing Applications for Greater Innovation and Agility

Version 1 helps customers across the UK and Ireland derive optimal value from existing systems. We are in a rapidly changing Digital era, and businesses face increasing pressure to change the way they operate. We don't believe you should let the investment you have already made go to waste – we can help you to modernise your core business systems and legacy applications to work in the way you need them to.

A Unique Methodology for Modernising Applications

Our unique methodology for modernising applications is highly beneficial to enterprise organisations seeking an agile, strategic and outcome-focused approach to Application Modernisation.

- Microsoft Azure Marketplace

“ In Version 1, Cafcass has a true partner. Our organisation’s missioncritical systems have been moved off-premise to the Cloud which has resulted in very positive financial and efficiency savings which are extremely important for managing an ever-increasing demand for our services. However, the relationship also resulted in further positive benefits as we have found in Version 1 a partner who really cares about our organisation, displaying empathy to our needs and priorities. ”

- Robert Langley, CIO of Cafcass
