Redefining the managed service experience with AI

Simplify

Remove complexity, embrace simplicity

Protect

Comprehensive proactive security

Innovate

Create value through insights

Realise

Meaningful performance indicators

Evolve

Adapt to a shifting landscape

Value Level Agreements (VLA)

The key difference between ASPIRE and traditional managed services is that we measure service success not only on hitting SLAs around resolution and response time, but also on tangible 'value adds' to your organisation. We call these VLAs or Value Level Agreements. A VLA is a meaningful KPI that impacts your organisation's bottom line which can be quantified, measured and reported upon.

SLA + VLA = ASPIRE

With ASPIRE, SLAs are a given. VLAs deliver on-going organisational value.

The Four Pillars of Cloud Management & Optimisation

Cloud Service Management

A single reliable point of access for cloud expertise, services & requests

Cloud Platform Operations

Proactively keeping your applications running

Cloud Cost Control

Optimising and controlling your cloud spend

Oracle Database to Oracle Cloud
in EMEA-UK & Ireland

"Version 1 demonstrated not just expert, credible experience as a public cloud and digital transformation partner, but also showed how it operates against a strong backdrop of core values aligned to our own and focused on the customer."

CIO, International Media Company

"When I was told recently that Version 1 had a 98% customer retention, I wasn't surprised. Their culture and quality came through in their engagement with us during the RFP process, which was one of the reasons we chose them, and it has stood to us very well over the course of the last 8 years."

CTO, Financial Institution

Why Version 1?

28 years of experience

13 global locations

6 strategic technology partners

12 years as a Great Place to Work

Industry best practice
