

VERSO RECRUITING MANAGEMENT PORTAL FOR STAFFING ENTERPRISES AND SOLUTION PROVIDERS

Does this sound familiar?

A customer calls or emails with you with a new position request, you spend time getting clarity on the requirements, you create a job description in your ATS or word document, you review and determine which recruiters, subcontractors, or internal group should address the request, you send out multiple emails to each party, or send out blind emails to subcontractor groups, you receive many inquiries for clarifications, you receive individual emails from subcontractors with resumes attached, you fish through email boxes to obtain the resumes, you submit resumes via email to the client, and then you are informed of a change from the client.

...And you repeat the entire process all over again!

The GlobalNow VERSO Portal improves the end to end recruiting process and performance of staffing companies, enabling participation among clients, internal staff, recruiters and subcontractors.

VERSO:

- Reduces cost of managing recruiters and subcontractors
- Streamlines talent request assignment – reducing time and effort
- Organizes recruiting workflow by customer as preferred
- Enables customers to submit talent request directly – improving satisfaction and customer engagement
- Monitors pace of candidate submission and response – using KPI alerts
- Creates candidate database for easy access for future needs
- Enforces communication of mandatory candidate requirements
- Visualizes recruiting trends and subcontractor performance
- Simplifies process for subcontractors – improves communication and encourages participation
- Integrates with Slack and Office 365 for easy and documented communication
- Predicts trends using Microsoft machine learning

GlobalNow VERSO is a cloud-based portal running on Microsoft Azure, with flexible workflow configuration and data management capabilities. Through the VERSO portal, your customers submit Talent Request and complete the mandatory information as dictated by you. These Talent Request are received by your internal staff, evaluated, and assigned to as many recruiters and subcontractors as you prefer, based on job criteria, performance, etc. These talent “suppliers” submit their candidates to the portal, completing mandatory and ancillary information. With VERSO, you manage a SINGLE request and workflow, eliminating the cumbersome and time-consuming process of multiple emails, email boxes, email responses, phone calls, clarifications, etc. Information visibility is controlled by you, with suppliers only privy to the **candidate** information **that they** submit, and customers only privy to information you want them to see.

**WITH VERSO - YOU REDUCE COST, ACCELERATE RESPONSIVENESS,
ELIMINATE CONFUSION, AND CREATE CLIENT ENGAGEMENT,
RESULTING IN A HIGHER LEVEL OF REVENUE GENERATION.**
