Data Science 'Data Hack'

Explore through action the value of Data Science

Data Science is rapidly transforming how business operate, creating new products and services, opening new markets and increasing profitability. The challenge is where to start the journey to build capability and generate commercial value

We collaboratively work with our customers to identify:

- Data Science opportunities mapping size of opportunity, complexity and data availability
- Discuss and agree data science proof of concept (POC) opportunity
- Over a 10 day period, build the data science POC with your team to enable them to gain real-world data science experience and finalise the data science business case

This at-a-glance box

- Gain real-world data science experience
- Deliver a roadmap of data science opportunities prioritised by commercial value
- Clear next steps to get your data science initiatives moving

Real Commercial Plan

- Data Science Opportunities
- Value Quantified
- Sequenced by Commercial Value

Real Organisational Experience

- Highly Collaborative Process
- Accelerated Learning Experience
- Business & Technical Team Members

Highly Scalable Platform

- Highly Scalable Data Science
- Proven Architecture Patterns
- Advanced Engineering

Rapid Return on Investment

Build Organisational Capability

Unleash Azure Cloud Capabilities

"…A great effort by the Versor team and some great insights and learnings which is encouraging us to explore the next steps…"

Product Owner, Digital Entertainment Company

How does the Data Science Data Hack work to achieve the business benefits

Real Commercial Value

- Prioritised by business value
- Value calculated by hard benefit ROI & cashflow
- Data Science capabilities increasing delivery velocity overtime
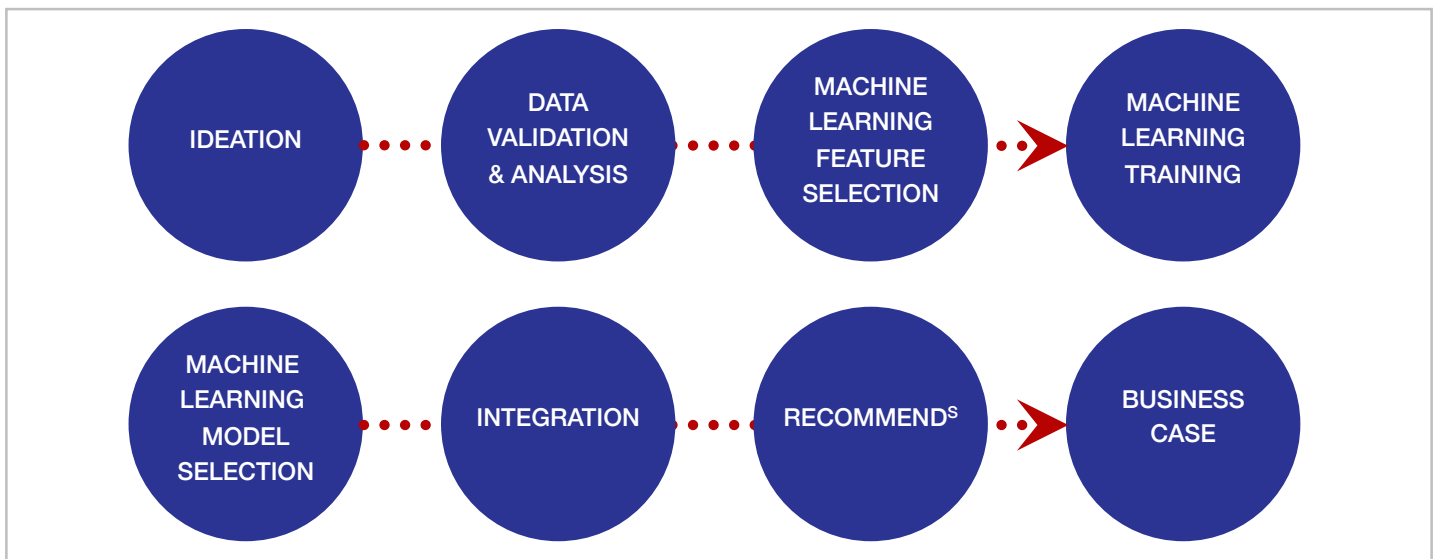

Scalable Investment

- Incremental infrastructure investment which scales as needed
- Leverage Azure components & services on demand
- Fast ROI without significant upfront capital investment

Our promise to you

We will collaboratively identify data science opportunities with real value to improve your company's performance
An offer to get you started

- Fixed price service time-boxed to ten working days
- Determine organizational readiness
- Identify real opportunities
- Get moving on Data Science without significant upfront investment
