

InvoiceNxt

EMPOWERING SUPPLIERS WITH INVOICENXT

InvoiceNxt provides immediate and tangible benefits for your suppliers, ensuring high adoption and regular use throughout the entire supply chain, with a special focus on SME-suppliers.

InvoiceNxt revolutionizes the way suppliers interact with corporate customers. This intuitive supplier self-service platform overcomes data barriers and offers direct access to transactional data from purchase order to payment. With InvoiceNxt, suppliers gain a suite of functionalities designed to streamline their operations and enable a reliable long-term cashflow planning.

KEY FEATURES OF INVOICENXT

Cashflow Forecast: Visibility of all scheduled orders and payments

Receivables: Detailed breakdown of all invoices sent, approved, and paid, incl. remittance details

Received Orders: Daily updated list of all received purchase orders, updated goods receipt postings with delivery details

Statement of accounts: Considering invoices, credit notes, payments, down-payments, and early payments (even if by third parties)

Simple invoice creation: "Perfect" invoices either by PO-flipping or image-upload (real-time OCR and self-validation)

Single-click early payment request: Suppliers can request immediate invoice payment against a discount, funded by the corporate buyer or a third party

EFFICIENT INVOICE MANAGEMENT

Creation of e-Invoices: Suppliers can effortlessly flip purchase orders or upload invoice images with subsequent real-time OCR. This feature results in 'perfect' invoices which can be automatically processed without additional manual effort on the corporate buyer side.

STAY INFORMED, STAY AHEAD WITH INVOICENXT

InvoiceNxt ensures that suppliers are always in the loop with crucial business updates

- Queries and Messages: Direct communication channel for suppliers to raise queries and receive real-time messages from corporate buyers.
- File Exchange: A secure, centralized platform to exchange and store documents.

REAL-TIME NOTIFICATIONS AND COMPREHENSIVE MANAGEMENT

- Notifications: Instant alerts for significant events like new purchase orders, goods receipt by the customer, invoice processing updates, early payment eligibility, and confirmation of invoice payment.
- User Management: Suppliers can effortlessly invite and manage user access, ensuring the right team members have the information they need.

A PARTNERSHIP THAT PAYS

InvoiceNxt is more than just a portal; it's a partnership tool that empowers suppliers with critical insights and functionalities. With InvoiceNxt, suppliers can:

- Improve cash flow management with a clear view of upcoming payments.
- Enhance operational efficiency by tracking deliveries and orders in real-time.
- Effortlessly access working capital with CashNow for payment on demand.
- Maintain seamless communication and document exchange with corporate customers.
