NXT AP

REDEFINING ACCOUNTS PAYABLE FOR SAP SUPER-HUMAN ACCOUNTS PAYABLE PROCESSING WITH VERTICAL AI AGENTS

From invoice receipt to posting, NXT AP ensures **real-time processing** of supplier invoices using current and complete SAP data. Combining advanced AI capabilities, native SAP integration, and unmatched scalability, NXT AP transforms AP functions into strategic drivers of efficiency and compliance.

WHY CHOOSE NXT AP?

A Vertical AI Agent Built for SAP

NXT AP is not just another AP solution—it is a deeply embedded, purpose-built AI agent revolutionizing accounts payable. It delivers:

- **Real-Time Processing**: NXT AP processes supplier invoice data from PDF as well as electronic and creates parked SAP documents in less than 3 seconds.
- **Full Compliance**: Leveraging SAP's native data validations and AI-enhanced compliance checks for global and local regulatory alignment.
- **End-to-End Automation**: Automates the entire AP process, from invoice receipt to posting, with unparalleled speed and accuracy.

3 SECONDS FROM PARKING TO POSTING

Counter	Activity ID	Description	Status	Description	Assigned to Agent	Date	Time

COMPREHENSIVE CAPABILITIES

AI-Driven Invoice Capture

- **NXT Capture:** Converts image-based invoices into structured data with super-human accuracy.
    - Supports 40+ markets.
    - Extracts header values and line-item details with precision, provides full-text for further analysis.
    - Processes diverse formats, including PDFs, e-Invoices (Peppol, etc.), and hybrid invoices.
- **Azure Document Intelligence:** Ensures flawless data extraction and compliance checks, even without supplier master or PO data.

2. **Real-Time Validation and Matching**

- Validates supplier data, PO line-items, and tax codes against current and complete SAP data.
- Performs three-way matching (invoice, PO, and Goods Receipt).
- Achieves 100% accurate auto-parking, even before GR is posted.

3. Seamless Exception Handling

Transparently manages exceptions with AI-driven workflows.
Assigns activities directly to authorized users and automates approvals.
Integrates seamlessly with existing legacy systems for approvals and exception resolutions.

4. AI-Powered Assistance for Business Users

- **NXT ASK**: A multilingual AI assistant providing real-time insights, troubleshooting, and context-specific support 24/7.
- **NXT EDGE Analytics**: Offers detailed performance reports, process benchmarking, and actionable insights to optimize operations.

KEY FEATURES

Native SAP Integration: Fully embedded in SAP with no middleware or data replication. Compliant by Design: Adaptive to evolving fiscal, legal, and accounting standards worldwide.

Data Privacy and Security: Operates statelessly within SAP, ensuring zero data leakage or dup**lication**.

Global Scalability: Supports 30+ e-invoice networks and integrates with Outlook365 mailboxes for PDF invoices.

AI-Enhanced Processing: Utilizes GPT models for advanced compliance, matching, and user support**.**

TAILORED FOR ENTERPRISE NEEDS

Effortless Deployment
- No infrastructure changes required.
- Quick setup with modular integration into existing workflows.

Flexible Pricing
- Outcome-based pricing with no minimum volumes, no fixed subscription fees, no binding periods.
- E-Invoice transaction fees included.

Long-Term Partnership
- Continuous support from SAP-certified experts.
- Regular updates and enhancements included at no additional cost.
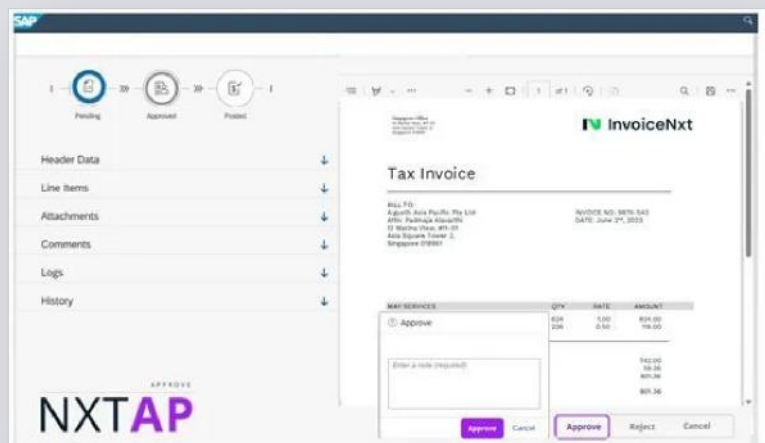

INTEGRATION WITH EXISTING SOLUTIONS

Offers modular replacements for outdated and costly capture solutions while retaining existing exception handling and approval workflows through standard adapters for common legacy solutions.

SEE THE MAGIC IN ACTION

- **Fast**: From invoice receipt to compliant posting in less than 10 seconds.
- **Transparent**: Every action documented for audit and compliance.
- **Efficient**: Reduces manual effort, errors, and processing time.

Transparent straight-through-processing

Exception handling

NO STRINGS ATTACHED

No recurring software subscription fees, no minimum volumes or binding periods. Software updates and hotline support are included.

LONG TERM PARTNERSHIP

While our hotline support will answer your questions, and provide software patches and updates, a dedicated and experienced SAP AP-automation expert will continuously support your journey from the initial workshop onwards.
