

# VIACode vBox

**Elevate your Azure management with vBox—a built-for-Azure solution delivering unparalleled insights into cost, security, and operations.**

vBox is VIAcode's proprietary SaaS platform designed to empower IT teams with advanced capabilities for cloud management, cost optimization, security, and operational excellence. Acting as a “virtual cloud center of excellence,” vBox bridges the gap between IT and business teams by providing visibility into cloud performance and actionable insights that drive continuous improvement.

## Key Benefits

### Comprehensive Cloud Management Framework

- + Establishes structured approaches to align cloud resources with best practices.
- + Minimizes risks associated with cost overruns, security vulnerabilities, and operational inefficiencies.

### Data-Driven Insights and Proactive Recommendations

- + Aggregates data from multiple Azure sources for real-time optimization opportunities.
- + Enables proactive management of cloud resources across cost, security, and operations.

### Strategic Differentiator for Azure

- + Provides high visibility and control, enhancing cloud management.
- + Enables organizations to maximize their Azure investments effectively.

## What vBox Enables for Cloud Center of Excellence Management

- + **Structured Cloud Management**  
Enforces cost, security, and operational best practices across your Azure environment.
- + **Actionable Optimization**  
Provides tailored recommendations for reducing spend, tightening security, and improving performance.
- + **Unified Visibility**  
Aggregates Azure data into a single view for real-time monitoring and proactive management.
- + **Cloud Maturity Tracking**  
Measures CCoE progress with clear metrics and transparent reporting.
- + **Collaboration & Accountability**  
Enhances cross-team visibility, supports task ownership, and streamlines cloud workflows

# Get Started Today

Unlock the full value of your Azure investment with vBox.

Whether you're looking to cut costs, boost security, or streamline operations, vBox delivers the visibility and guidance you need.

## Why Choose VIAcode?

### Exclusive VIAcode-built Technology

Specifically built-for-Azure, vBox assesses and identifies opportunities to reduce costs (typically around 30% of annual spend), harden security and enhance operations. VIAcode's AI Accelerator triples productivity by streamlining the design, development and deployment of AI workloads, helping enterprises go from idea to impact faster.

### Over 25 Years Providing Microsoft-Focused Services

With over two decades of experience in delivering Microsoft-focused management, operations and migration services, no one is more experienced.

### Access to Exclusive Microsoft Funding Programs

As a result of our partnership with Microsoft, we have access to special Microsoft funding that may be able to fully cover the cost of services like Azure migration, threat protection, AI and more.

### Fully Credentialed and Vetted by Microsoft

Recognized as a Microsoft Managed Partner and Direct CSP, we hold 5 solution designations and 3 advanced specializations.
