

A network diagram background consisting of various sized grey circles connected by thin grey lines. A single red circle with a white grid pattern is located in the upper right corner.

# Free Windows 2008

## Azure Migration

# Extended Support of Windows Server 2008 Ends

On January 14, 2020, support for Windows Server 2008 and 2008 R2 will end.

Avoid next challenges and vulnerabilities caused by end of support:

## NO UPDATES

- No access to security or non-security updates

## COMPLIANCE

- Risk to fail to meet compliance standards and industry regulators

## TIME PRESURE

- No time for upgrade to recent version due to complex infrastructure

## HIGHER MAINTENANCE COSTS

- Maintaining legacy servers gets expensive quickly

# SECURE now – transform when ready

01

## SECURITY

Three years of Extended Security Updates at no additional charge

02

## COMPLIANCE

Security built into Azure, plus more than 70 compliance certifications

03

## TIME

More time to modernize your workloads

04

## COST

Use existing licenses and save up to 55% with Azure Hybrid Benefit

05

## MODERNIZATION

Comprehensive transformation plan for your applications to gain maximum benefits in Azure

06

## MANAGED INFRASTRUCTURE

Extend your IT team with VIAcode Managed Services to improve your IT processes

# ASSESS

VIAcode will discover your on-premises machines to determine Azure readiness

We will analyze applications topologies and build Dependency Map

Provide comprehensive migration plan and total cost of ownership

# MIGRATE

We will replicate your on-premises machines to Azure

Failover replicated servers and verify migrated components

We will help you to test migrated servers

# OPTIMIZE

Right-sizing and manage costs, strengthen security and ensure compliance

VIAcode will plan your app modernization to complete its transformation for maximum benefits on Azure

# Offers Details

- Free migration of your on-premises Windows Server 2008 or 2008 R2 machines to Azure
- Only standalone servers
- 2 weeks duration for assessment and implementation
- Up to 5 servers
- Post-migration support options using VIAcode Managed Services for Azure are available

# VIACode

We want to make your cloud operation so simple and cost effective there is no reason to do it yourself

## Our DNA

- **LISTENING**  
Understand before being understood
- **SYNERGY**  
Find win-win solution
- **INTEGRITY**  
Honor our word

# Services

## Azure Implementation

- Migration
- Automation & DevOps
- Operationalization

## Application Development

- Rearchitecting to Cloud
- User usage tracking
- Monitoring & Log analytics

## Managed Services

- Infrastructure
- Cost
- Security
- Backup & Disaster Recovery

# Differentiators

- Part of Microsoft Product teams  
MS IT, Azure portal, SCOM, Service Fabric, Azure Stack, SQL Server
- 12+ years of experience delivering Microsoft-branded monitoring solutions  
SQL, Windows OS, Azure, O365, Azure SQL DB, Azure Stack, DNS, DHCP, NET/Java  
SCOM Management Packs
- Development and Maintenance of **Microsoft Azure Demo** platform for thousands of Microsoft's **Cloud Solution Architects**

# Thank You!
