

Deploy modern work scenarios—rapidly and securely

Virsage Workplace Workshop

Workshop highlights

Evaluate your work options and business implications in one workshop

Goal is to enable modern IT strategies quickly, with more advanced security options at a later stage

Half day virtual workshop leaves you with a concrete deployment plan, timelines, and next actions

Modern work is enabling millions of workers around the world to stay productive, helping organizations to maintain business continuity in the face of our global health crisis.

Enable your team to work efficiently with a Virsage WorkPlace Workshop

With this half-day virtual workshop, we'll show you how you can leverage Virsage to:

Empower people to stay connected

- Enable people to meet and collaborate from home
- Engage people with virtual events and communications
- Make productivity applications available on any device

Maintain security and control

- Enable cloud identities with single sign-on and self-service password reset
- Secure, remote access to data and apps
- Enable MFA and Conditional Access

Why you should attend

We'll discuss the most critical steps for modern work, and how we can rapidly deploy key scenarios. We'll evaluate your options and leave you with a concrete deployment plan and next steps.

This half-day virtual workshop is primarily focused on Modernizing IT, addressing the following quick steps of enablement:

1. Enable cloud or hybrid security w/MFA

Single sign-on and self-service password reset

2. Rapid deployment of Security integrations

Checklists, activation, installation, configuration

3. Provide Adoption Strategies

End user training, workload introductions & support resources

4. Secure access to IT

Conditional Access to critical apps and data

In addition to the **WorkPlace Workshop** recommendations, you'll get:

- Environmental & workload analysis, including a quick assessment of your security posture.
- A list of actionable recommendations to deploy hybrid identity, apps, and security solutions.
- WorkPlace recommendations, including end user training, workload introductions, and support resources.
- An inside look at Virsage's holistic approach to modern work and how it relates to your organization.
- Identification of potential blockers and challenges
- Recommendation on Microsoft 365 plans.
- WorkPlace Dashboard Metrics
 - IT Ticket Volume with Response and Resolution
 - Computer/Server Anti-Virus Coverage
 - Computer/Server Patch Management Status
 - Internet Security
 - Failed Login Attempts
 - Server Monitoring
 - Server Patch Management

Follow-up discussions

The half-day virtual workshop is focusing on quick and secure remote work enablement, which is also a foundational element for future conversations on our Microsoft 365 and other 150+ vendor solutions. There are additional, Virsage workshop conversations that are available, including:

- Teams Calling Workshop
- Get Modern Workshop
- Secure remote access to on-premises apps (App Proxy)
- Enable users to securely access cloud apps from outside corporate networks
- Advanced Security Workshop (including Threat Check)
- Windows Virtual Desktop Workshop

Who should attend

The workshop is intended for Information Technology decision makers (ITDM) such as:

- **CEO/President**
- **Chief Security Officer (CSO)**
- **Director of IT**
- **System Analyst**
- **IT Security**
- **IT Compliance**
- **Data Governance**
- **IT Operations**
