Parcel & Freight Shipping

VISIONET

Parcel & Freight Shipping Solution

Optimize your shipping experience by seamlessly connecting your Microsoft Dynamics 365 deployment to major shipping carriers

Tired of frequent delays while processing shipments? Do manual procedures take up all your time and energy? Misplaced orders and wrong deliveries increase costs and damage customer relationships. Address these problems with Visionet's Parcel & Freight Shipping Solution..

Introducing Visionet's Parcel & Freight Shipping Solution

Visionet Parcel & Freight Shipping
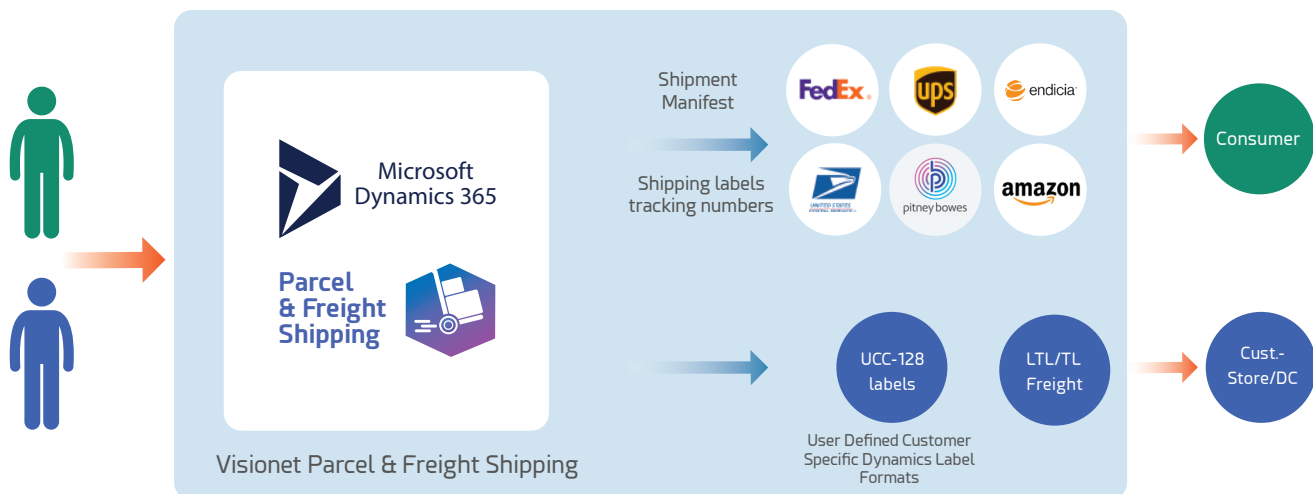

Benefits	Minimize maintenance costs and service disruption	Capture shipping and return tracking information	Fewer manual shipping processes
Reduce third-party software fees	Increase sales with international reach	Connect with global carriers	Get rid of non-standard and disconnected UCC-128 label management solutions

Features	Preconfigured carrier integration improves time to value	Create and reuse shipping profiles for multiple carriers	Assign a preferred carrier to each customer
Automatic carrier label printing	Capture & inquire shipping and return tracking information within Dynamics 365	Cloud-based – avoid platform updates and system downtime	Configurable GS1/UCC-128 label format definition by customer and automatic

Automate your shipping process to save time, reduce manual effort, minimize delays, and improve margins

Seamless Integration

The Parcel & Freight Shipping Solution comes pre-integrated with FedEx and UPS. It also supports integration with USPS, DHL, and other international carriers. Each customer can be assigned a preferred carrier, and different shipper accounts can be selected dynamically

High Efficiency

ERP-integrated solution improves overall supply chain efficiency by tracking down and retrieving information directly from Dynamics 365 and streamlining warehouse operations by eliminating repetitive manual tasks during order fulfill-ment.

High Visibility

Streamline key shipping processes like label reprint, return shipping label exports, tracking numbers, and shipment rating inquiry. Quickly and accurately manage domestic and international deliveries and returns.

Enhance profitability and optimize your supply chain operations
