## Dynamics 365 Commerce-in-a-Day Workshop

Free 1 Day Discovery Workshop & Use Case Feasibility Assessment Services Offer

### Digital Commerce is Changing

Post COVID, rapid adoption of robust eCommerce systems that can absorb high transaction volumes and deliver seamlessly connected commerce experiences is essential. Customers today require personalization, which means businesses must have connected data, AI for shopper analytics & digital strategies to drive conversions.

D365 Commerce modernizes your end-to-end customer experience and creates personalized experiences at every point of your customers journey. Visionet's free workshop will help you discover how Dynamics 365 Commerce can unlock operational efficiencies, boost productivity and enhance customer experiences for your business.

### Visionet is Microsoft's leading D365 Commerce Partner

Our expert experience with D365 Commerce, Power Platform, Azure related service offerings combined with our accelerators and use-case experience makes this workshop a must-attend! Learn all about Microsoft's Dynamics Commerce offering and discover new use case opportunities for your business.

#### Why Visionet?

- Visionet has several D365 Commerce wins since 2020
- Visionet has led multiple D365 Commerce-in-a-day workshops
