

PowerAgent: SAP budget planner

Real-time insights | Sub-activity control | Copilot Agent support

Built for finance teams who need more than spreadsheets

Budget planning in SAP doesn't have to be complex or manual anymore. PowerAgent-SAP budget planner bridges SAP FICO with Microsoft Power Platform to deliver a fast, flexible, and AI-enabled way to manage budgets, at both activity and sub-activity levels.

With PowerAgent, your team can update activity-level budgets directly into SAP through the app, while also adding and managing sub-activity level budgets within Power Platform for deeper financial control.

Whether you're a CFO looking for real-time insights or a department head wanting more control, PowerAgent helps you make faster, smarter budgeting decisions, backed by live SAP data, workflow automation and Copilot Agent support.

What you get

Feature	What it means for you
Live SAP connection	Real-time sync with SAP FICO, no data lag
Sub-activity planning	More control with granular budgeting
Copilot AI assistant	Ask, update, and analyze in plain English
Auto-approvals and workflows	Budget governance without bottlenecks
No-code configuration	Fast rollout, no developers required

Ideal for

CFOs and finance leaders needing real-time budget visibility

Department heads wanting autonomy without losing control

IT and Ops teams seeking scalable solutions without heavy lift

Just 2 weeks

Implementation time

\$35,000

Implementation cost

US, EU, UK, UAE, KSA, Egypt, South Africa, Qatar & Kenya

Supported regions

Key outcomes

Better financial control

Plan and track beyond standard SAP structures, gaining deeper visibility across departments and projects.

Faster decision-making

Copilot AI delivers instant insights and variance analysis to help you act with confidence.

Lean, agile, scalable

Grows with your organization without the requirement of an overhaul. Built on trusted platforms like SAP and Power Platform.

Why PowerAgent is a game changer

From complex to intuitive

Skip the SAP complexity. With PowerAgent, finance teams use a familiar interface in Power Platform. View, edit, and drill down into budgets with ease.

AI that talks finance

Thanks to Copilot, your teams can interact with the system using simple language prompts without navigating screens or waiting for IT.

Structured, transparent, secure

Role-based access, version controls, and audit trails are built-in. Every change is tracked. Every stakeholder stays aligned.

How it works

Connect

- Real-time sync with SAP FICO
- Pulls in department and activity-level data

Plan

- Update activity-level budgets amount directly in SAP from the app
- Add and manage sub-activity-level budgets in Power Platform

Interact

- Use Copilot to ask questions or modify numbers
- Get instant insights and recommendations

Approve & govern

- Auto-routing of budget changes for approvals
- Role-based controls ensure compliance
