With our team working for you, you will get access to not only the best cloud solutions in the market but the best onsite and offsite support and training.

"We Prioritize Service"

Our Products

Microsoft Dynamics ERP on the cloud

Regardless what your business size is, moving your Microsoft Dynamics to the Cloud delivers many benefits to your business; moving costs to Opex away from capex; allowing scalability and the flexibility to meet changing business requirements; plus, always stay up to date, and extend the lifespan of your ERP software far beyond any on premise installation. Microsoft ERP include the following modules;

· Financial Management and Accounting
· Inventory Management and Operations
· Sales and Service Management
· Business Intelligence and Reporting
· Human Resources and Payroll

Key Benefits

• Lower entry cost
• Available from anywhere
• Reduced IT burden
• Enhanced security
• Easier integration
• Return on Investment

Microsoft Project Online

Microsoft Project Online is a flexible online solution for project portfolio management (PPM) and everyday work. Delivered through Microsoft Office 365. The solution provides powerful project management capabilities for planning, prioritizing, managing projects and project portfolio investments — anywhere and almost any device. Project Online can be used by administrators, portfolio managers and viewers, project and resource managers, and team leads and members

Key Benefits

• Boost online collaboration across the organisation
• Seamless integration with collaboration tools like Skype for
  Business and Yammer
• Make faster- smarter decisions
• Get information in real-time

Our Cloud ERP Solution intergrates all facets of an operation, including Development, Manufacturing, Sales and Marketing, includes Project Management, Financials, Manufacturing, Warehouse Management, Accounting, Sales and Business Management, which include the following products;

Our Products

Microsoft CRM Online

Microsoft Dynamics is a line of enterprise resource planning (ERP) and Customer Relationship Management (CRM) software applications. Microsoft Dynamics applications are delivered through a network of reselling partners who provide specialized services. Microsoft Dynamics CRM Online provides a multi-tiered licensing model.

Key Benefits

• *Flexibility*. You can mix and match different types of licenses to accommodate the specific needs of your business and save money in the process.
• *High value*. You can choose from highly competitive offerings with a low Total Cost of Ownership.
• *Clarity.* You acquire licenses based on the functionality you require, rather than how you access the system.
• *Parity.* You use a consistent licensing model that applies equally to online and on-premises solutions built on Microsoft Dynamics CRM.
• *Mobile access*. You can access CRM data with your mobile device at no additional charge.

Microsoft Office 365 Business Essentials

Microsoft Office 365 features vary widely depending on the subscription plan. Microsoft designed subscription plans for home users, enterprise IT and everything in between. Here are some of the more common Office 365 features:
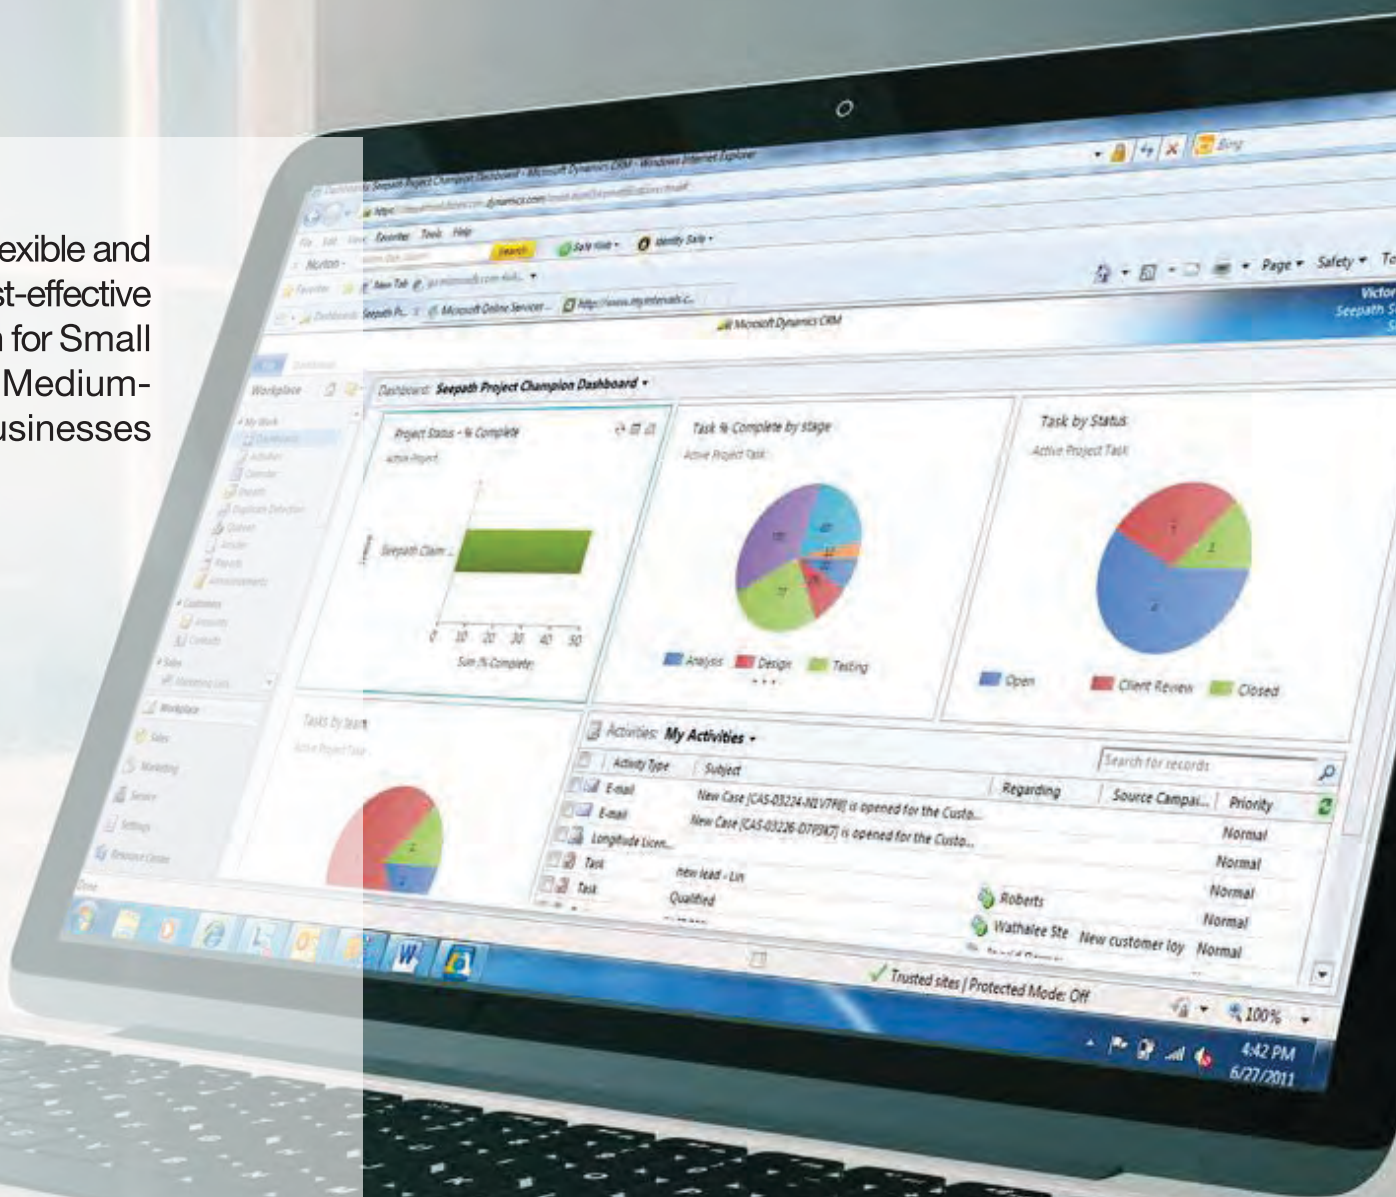

Key Benefits

• Office Suite (Word, Excel, PowerPoint, Outlook, OneNote, Publisher, Skype for Business, Access)
• Exchange Online (email, calendar, tasks)
• SharePoint Online (web portal for collaboration)
• Yammer (enterprise social networking)
• OneDrive for Business (cloud file storage)
• Planner (project management)
• Power BI (business intelligence)
• Delve (social document discovery)
• Video (a private video library)
• Sway (a tool for creating reports, presentations and newsletters
