Vivli
CENTER FOR GLOBAL CLINICAL RESEARCH DATA

Become a Member

and support global clinical research data sharing

Vivli's **mission** is to promote, coordinate, and facilitate clinical research data sharing through the creation and implementation of a sustainable global data sharing enterprise.

As an institution with a **commitment** to transparency and data sharing, the Vivli platform will make it easy for your studies to be found, requested and analyzed securely.
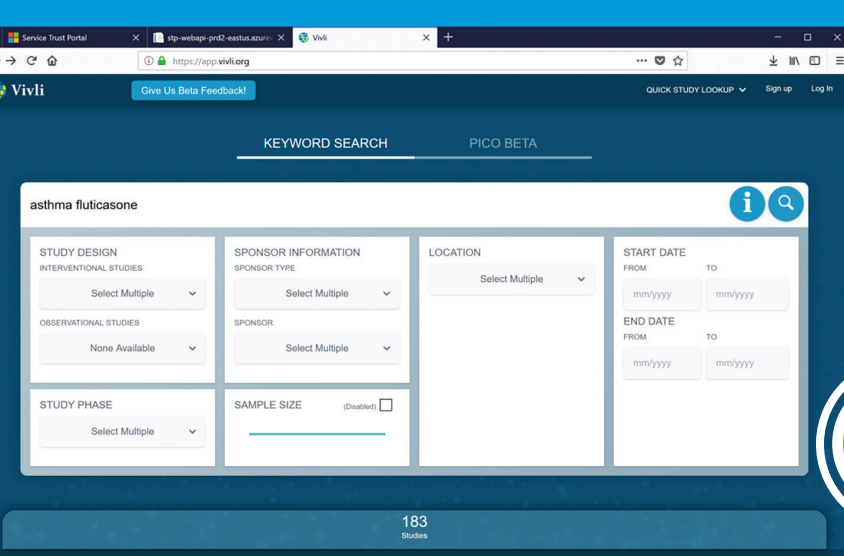

Join Vivli as a Member to benefit from our innovative, secure and user-friendly global data sharing and analytics platform. Show your commitment as a leader in data sharing, and together we can drive forward scientific innovation and advance human health.

Member benefits

- **Frontline support:** Vivli manages queries from researchers — from the search phase and data request process through licensing and use of statistical tools for analysis
- **Data Request Proces:** Managed by dedicated Vivli staff
- **24x7 global support** by a world-class team that includes Vivli staff and Insight BlueMetal Managed Services
- **One-on-One Training:** Orientation sessions and training for data contributor administrators
- **Be seen as a leader in data-sharing:** Take advantage of our innovative platform to push forward scientific discoveries
- **Increase discoverability:** Maximize the visibility of your clinical trials through Vivli's professional curation service
- **Securely store and host your data** on our platform built on Microsoft's world-class Azure Cloud
- **Increase efficiency through harmonization:** Take advantage of Vivli's harmonized policies and streamlined processes
- **Reduce workload:** Vivli centrally manages requests that otherwise would be handled internally by each organization
- **Analyze and aggregate data:** With Vivli's Secure Research Environment and state of the art tools, researchers can do more with shared data sets.
- **User Support services:** 24x7 global support for all users

SEARCH > REQUEST > ACCESS > ANALYZE > DISSEMINATE

The Vivli platform offers the ability for researchers to bring in their own data and tools. It has a powerful search that allows researchers to quickly and easily refine their queries using a direct keyword search or a PICO search that uses vocabularly trees.

Use Vivli to help meet ICMJE requirements

Facilitate ICMJE 2018 data sharing requirements: Vivli can provide secure storage of your data with unique Digital Identifiable Objects (DOIs) that can be used to track the use of your data as well as for citation.

Governance

Vivli's adaptable approach respects the review process of each data contributor and has built-in flexibility to accommodate a wide range of review requirements.

In areas where harmonization is critical for the user experience,
we will provide:

• Harmonized Data Request Form

• Harmonized Data Use Agreement

• Harmonized Data Contributor Agreement

The Vivli platform provides a Secure Research Environment with state-of-the art tools that allow researchers to analyze data to discover new scientific insights.

Our platform allows users to:

• **More efficiently find and use Member data** by maximizing the visibility of your institution's trials through Vivli's professional curation service.

• **Analyze and aggregate data:** Researchers can integrate and analyze datasets in a secure environment.

• **Cross-platform sharing:** Vivli enables sharing data across existing repositories and platforms.

• **Flexibility:** Researchers may bring in their own data sets, statistical software, and scripts to use on an individual Secure Research Environment within the Vivli platform.
