

Microsoft Teams Enablement Experience

10 days Engagement

Start your Microsoft Teams Journey Today!

Microsoft Teams is the complete collaboration, chat, meetings, and calling solution for teamwork. When you have a solid collaboration and communication solution where your team can share and make decisions faster, there's no limit to what you can achieve.

Host audio, video, live conferences, and chat with anyone inside or outside your organization anytime and wherever they are. Let us help you enable remote work at your organization to provide the tools your employees need to create and share files with the popular Office 365 applications. By using Teams you'll be able to:

- ✓ Improve online meetings
- ✓ Increase productivity
- ✓ Work with confidence and focus on what really matters

What are we offering?

VNEXT is a certified Microsoft Partner with extensive experience in the Unified Communications and Collaboration space. With this offer, we will get you started with your Teams migration experience journey **in 10 days** providing the following deliverables:

- Microsoft Teams Proof of Concept Experience
- Comprehensive adoption and Change Management Plan
- Network assessment of multiple sites
- Guidance on Voice and PSTN integration
- Production deployment of Microsoft Teams
- Hybrid configuration with Skype for Business on-premise
- Migration of users from current environment
- Support and admin training of IT staff in Microsoft Teams.
