

# Collaborative Apps Workshop

Get ready to achieve more with Microsoft Teams

Hybrid work transformed the way many of us run our businesses, with leaders working tirelessly to ensure their people could remain productive while logging in virtually. Even though hybrid work is our new reality, many employees are still jumping between disparate tools to get their work done. Constant app switching reduces performance, divides attention, and even lowers overall employee engagement.

## What you get?

Through this engagement, we'll look at your unique business goals, workflows, and tools with you, then help create one central hub for all your work in Microsoft Teams! Experts will guide you through ways to extend and customize your Teams workspace, adding and connecting all the apps your people need to get their work done. You'll get a plan to get your apps up and running - so you can start taking advantage of a centralized workspace right away.

**Drive business results** through scenarios for increased productivity

**Accelerate outcomes** with ready-to-use apps, plug and play accelerators, and solution options

**Enable app governance** through guidance on governing Teams apps using policies and controls

## Why VNEXT?

With extensive solution development experience, **VNEXT** can help you improve workforce productivity through automation of key business processes, leveraging the Teams platform. We will work with you to understand your environment and identify opportunities to help you achieve continuous business value from your Teams investment.

## We'll work with you to:

- ✓ Determine how to streamline processes and improve productivity and collaboration.
- ✓ Identify and prioritize use cases for key requirements and challenges.
- ✓ Develop an implementation plan and next steps for achieve your desired goals.

## Contact us today to get started!
