Built with People in Mind

Your employees are your greatest asset, your brand, your customers. They are the driving force behind your success. This is why we have created a solution to help you balance your business goals with individual employee needs.

Redefine Your HR with Raiser

As an end-to-end Human Resource Management System (HRMS), Raiser was made to transform both HR and employee experiences of small to mid-size progressive organizations.

It is a power-packed integrated system for the effective management of the entire hire-to-retire cycle.

Raiser comes with built-in modules of People Management, Leave Management, Employee Self-Service, and Talent Acquisition – all featuring custom approval workflows, multi-tenant capacities, and multi-granular reporting features.

All the HR Features You Need, In a Single Suite

**People
Management**

**Leave
Management**

People Management

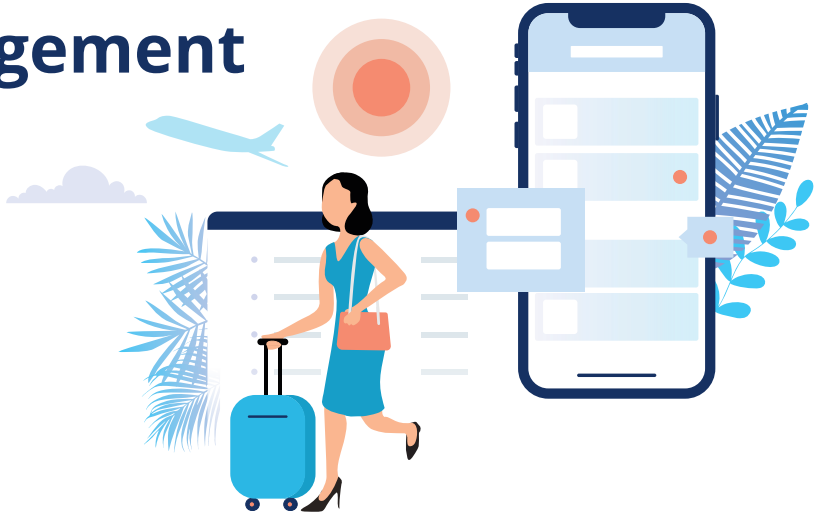

Put your people first.

Elevate your people management capabilities with Raiser. With our centralized data and document management system, your HR team will have a convenient solution to take care of all your employee needs.

- Employee Centralized Data Management
- Employee Document Management
- Employee Lifecycle Management
- Automated Alerts and Workflows

Leave Management

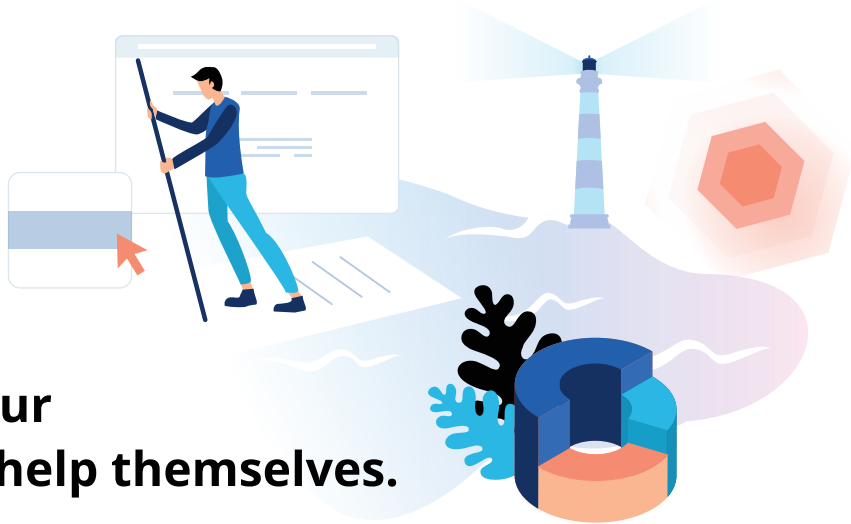

Leave no room for busywork.

Raiser makes Leave Management easy and accurate, and helps you keep a tap on the cost of absences while maintaining your productivity level. From now on, managing messy time-off requests will be a breeze.

- Leave Request Tracking
- Real-time Leave Requests Processing
- Actionable Leave Calendars
- Custom Time Off Types
- Configurable Approvals Routing
- Location-specific Holidays Calendar
- Multi-level Leave Dashboards

Employee Self-Service

Help your people help themselves.

Engage your employees and enable them to be in charge of their personal information by editing their profiles, applying for leave, and performing other actions with Employee Self-Service Module.

- Own Data Maintenance
- Time Off Requests
- Role-based Dashboards on Leave Balances and on Important Contacts
- Role-specific ESS Features for Managers

Talent Acquisition

Recruit to retain.

Improve your odds of winning the talent war. Raiser's Talent Acquisition module will help you attract and retain the best talent in this highly competitive landscape by seamlessly guiding you through the entire recruitment pipeline - from requisition to onboarding.

- Requisition Management
- Configurable Talent Pipelines
- Job Postings
- Applicant Tracking System
- Candidate Sourcing and Recruiting
- Dynamic Approval Routing Process
- Recruitment-related Metrics

Unleash a lot more Raiser features.

Perform your essential HR functions with your mobile and create custom workflows, approval routings and drive your multi-location configurations.

Ready to raise the bar?

There is no time like the present.
