HOW TO LEVERAGE AZURE FOR YOUR BUSINESS

ABOUT WAMS

Since 1974, WAMS has been a premier provider of computer consulting and support services for law firms and businesses. As one of the most experienced and respected law firm automation consultants and integrators in Southern California, WAMS maintains its reputation for providing an outstanding level of service, proactive monitoring, and reliable solutions by installing and maintaining over a 100 computer systems for law firms and businesses. From start to finish, WAMS makes sure the technological side of your business is running smoothly so you can focus on what really matters.

What customers are saying:

"Local SoCal IT Consulting firm. They handle just about every major project for us: purchasing, cost comparisons, network hardware config, unraveling the labyrinths of software licensing installations, major system upgrades and roll outs. All pro, responsive, accountable, communicative, integrity-driven, experts all, and above all GREAT, great people."

- Jay Dover, Director of IT, Liebert, Cassidy, Whitmore

WHAT WE OFFER

WAMS offers a variety of IT support and managed services for your business or law firm to minimize the cost of servers with cloud computing/storing, implement the highest standards of cybersecurity, offer 24/7 IT support and on-site services, customized training for Microsoft Office or legal applications and software, and support Azure Cloud Services to support applications that are scalable, reliable, and inexpensive to operate.

Our Azure Cloud Services will accelerate the deployment of your web and cloud applications, and increase application resiliency. With Azure Lighthouse, we can deliver managed services using comprehensive and robust tooling built into the Azure platform. You will maintain control over who has access to their tenant, which resources they can access, and what actions can be taken. Enterprise organizations managing resources across multiple tenants can use Azure Lighthouse to streamline management tasks.

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
