Copilot Adopt & Change Management

Empowering your people for AI success

Organisations across the UK are embracing Copilot and GenAI to transform how their people work, innovate, and drive sustainable growth

Wanstor acts as a trusted strategic partner, guiding organisations through every phase of their Copilot and GenAI adoption journey.

Copilot and GenAI are reshaping business processes, but their true value is unlocked when employees have the skills, confidence, and support to embrace these tools.

That's why **Wanstor** provides a holistic approach to Copilot implementation, ensuring every initiative is aligned with strategic goals and supported by robust change management.

Why organisations should adopt Copilot:

As organisations move toward AI-driven productivity, adoption is more than a technical rollout – it's about people and processes. Copilot can transform how teams work, but success depends on embedding it into daily workflows and ensuring employees feel confident using it.

- + **Drive User Engagement:** Build enthusiasm and improve understanding through structured onboarding.
- + **Smooth Transition:** Reduce disruption with proven change management strategies.
- + **Maximise Value:** Integrate Copilot into core processes for lasting impact.
- + **Empower Teams:** Provide tailored training and support for different roles.

Business transformation with Copilot & GenAI

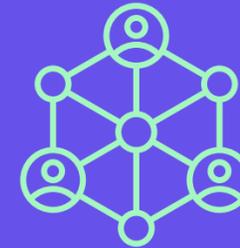

Our approach focuses on equipping your workforce with the skills and confidence to embrace new technologies, fostering a culture of innovation and adaptability.

Through practical workshops, accessible resources, and real-world demonstrations, **Wanstor** helps employees understand Copilot's capabilities and apply them effectively in their roles.

We will also play a pivotal role in workforce transformation, equipping your teams with the necessary skills, knowledge, and change management support to confidently embrace new technologies and ways of working.

Through ongoing collaboration and transparent communication, We works to understand your unique needs, challenges, and aspirations, helping you harness the full potential of GenAI to drive innovation, efficiency, and measurable value

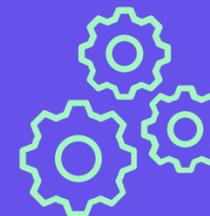

What we'll do:

Engage & align: We'll work closely with stakeholders to define adoption goals and secure leadership buy-in

Empower People: Deliver targeted training, workshops, and resources to build confidence and capability

Embed best practices: Establish a Copilot Centre of Excellence (CCoE) to drive continuous improvement

Measure & optimise: We'll track KPIs to monitor usage, and refine strategies for maximum ROI

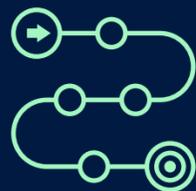

Our approach

Wanstor recognises that transforming the way staff work is challenging, and is dedicated to supporting this change through targeted training and ongoing guidance.

By providing practical workshops, accessible resources, and real-world demonstrations, **Wanstor** ensures every employee understands the full capabilities of Copilot and knows how to use it effectively.

Why Wanstor

By leveraging deep expertise and industry insight, Wanstor provides comprehensive advisory services that not only support the design and execution of your GenAI strategy, but also ensure each initiative is thoughtfully aligned with your organisation's overarching business objectives and priorities.

For over 20 years, Wanstor has partnered with organisations to deliver technology that drives measurable outcomes. Today, we bring that same expertise to AI and Copilot adoption, helping businesses unlock productivity, innovation, and sustainable growth.

We combine deep technical knowledge with a strategic approach, ensuring every AI initiative is secure, ethical, and aligned with your goals. From readiness assessments to tailored engagement sessions and ongoing optimisation, we provides unrivalled support throughout your transformation journey:

- + Targeted training and practical workshops
- + Dedicated Copilot Centre of Excellence (CCoE)
- + Continuous optimisation through feedback and insights
- + Transparent reporting and measurable success metrics
