# Consulting session

## During the consulting session we will

- Figure out how Dynamics 365 F&O can help you achieve your business goals
- Demonstrate the key attributes, functions, and capabilities of Dynamics 365 F&O
- Showcase different integration options and Apps that can be used with Dynamics 365 F&O

# Consulting session deliverables

If you **already have an ERP** implemented and are thinking about migrating to Dynamics 365 F&O or you need a professional to provide a consultation for you for your existing Dynamics 365 F&O solution we will:

- Identify which extensions and apps your business requires
- Suggest modules/features that are the right fit for your business
- Perform Dynamics 365 F&O feature, backend, and production Demo
- Develop an implementation plan with timelines and cost estimates. Please note that it is outside of consulting session time frame

If you want to get an ERP **implemented for the first time**, our experts can guide you on what course of action you should take. The free consultancy for Dynamics 365 F&O will include the following:

- Identifying which extensions and apps your business requires
- Suggesting modules/features that are the right fit for your business
- Perform Dynamics 365 F&O feature, backend, and production Demo
- We can also help you choose the right Dynamics 365 F&O plan for your business.
