

DATA ANALYTICS IN A DAY WORKSHOP

Insights & Hands-on experience

www.waysaheadglobal.com

WaysAhead Global Pte. Ltd.

Data is eternal and we are building consciousness around it. We are WaysAhead Global.

We help companies to transform their business vision into data-centric innovations. WaysAhead Global is a Singapore-based digital transformation company leveraging on the findings and power of data analytics and artificial intelligence, helping startups and tech companies across the planet to maximize investments from Data assets.

Data Analytics in A Day

In today's fast-paced and data-driven world, organizations need to make informed decisions based on data to stay ahead of the competition, we have covered following points in the workshop:

- Deepen your understanding of data analytics and its impact on business transformation
- Develop hands-on experience with cutting-edge data analytics tools and techniques
- Learn how to use dashboards, reports, BI, and visualization to gain informed insights
- Explore the potential of augmented intelligence in uncovering hidden patterns and information
- Evaluate the various types of analytics and determine which are most valuable for your organization
- Network with like-minded professionals and exchange ideas and best practices.

Agendas for the Workshop

This workshop is designed to help businesses and individuals learn how to effectively leverage data analytics to drive growth and transform their operations through following agendas:

- The role of self-service and data science in cloud analytics
- Understanding the challenges and opportunities of data analytics
- Merging the benefits of Data Lake and Data Warehouse
- An in-depth look at Microsoft Azure Synapse Analytics
- Customer success stories and best practices
- Interactive hands-on sessions with Azure Synapse Analytics and Power BI
- Developing a road-map for implementation and growth

THANK YOU
