What Is Modern Workplace as a Service (MWaaS)?

The workplace has changed. The rapid shift to remote work has left employees feeling disconnected from each other and the tools they work with.

Modern Workplace as a Service is WBM's robust solution for your IT needs, demands, and challenges. Empower your workforce, reduce IT dependencies, and generate momentum for growth with WBM's flexible MWaaS solution.

MWaaS perfects Device as a Service (DaaS) by bundling the right hardware, software, and services into a powerful package that's customized to your organization's needs—using transparent per user pricing.
