# AZURE MIGRATION FRAMEWORK

by Konica Minolta IT Solutions Czech
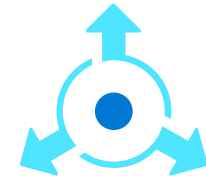

How can migrating to the cloud help?

Flip CAPEX to OPEX, pay as you consume

Enhance your organization's security posture

Scale to what's needed, focus on what matters

Migrate to Azure efficiently on your own terms

**Optimize costs and migrate with confidence**

Stay secure and resilient across hybrid environments

Scale your applications and workloads on-demand

Pay less with Azure. AWS is 5x more expensive.

Windows Server savings illustration

Azure Hybrid Benefit Savings   ESU Savings

Azure

AWS

■ Windows VM   ■ Extended security updates

Microsoft Azure

AWS
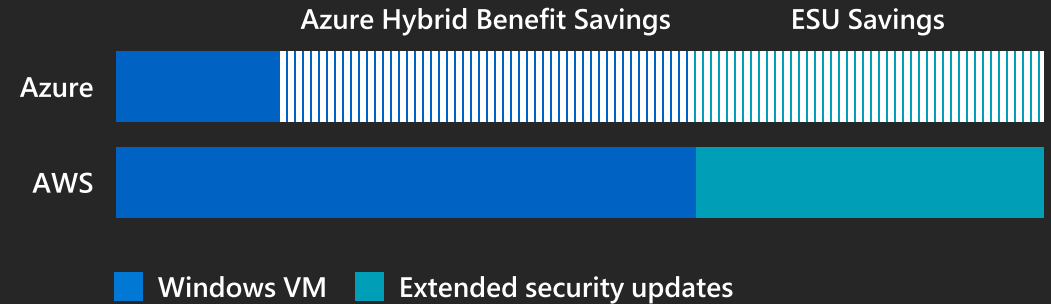

SQL Server savings illustration (PaaS)

Azure Hybrid Benefit Savings

Azure

AWS

■ Azure SQL Database   ■ AWS RDS for SQL EE

Why run Windows Server and SQL Server anywhere else?

Security and compliance

Migration plan

Business strategy

Technical skilling

Specific migration workloads committed	Azure Foundations	Migration training			
Migration plan		Azure administration			
Technical resources		Cloud Strategy Team In Place (CDE)			

High level business strategy	Key stakeholder sign off	Migration funding committed

Infrastructure security	Data protection	Incident response	Operations model

| | | | OS patching |
| Logging and monitoring | | | Monitoring |

Partner support

| Customer/ partner contract |
| Migration partner |
| Azure operations partner |

| Project management resources |
| Financial analysis |
| Migration strategy |
| Pilot applications and VM identification |
| Migration targeted scope |

TCO/ business case

Landing zone

| Subscription design |
| Governance |
| Networking |
| Identity |
| Cost management |

Migration execution

Identity and access management	Backup
Security RACI	Disaster recovery
Shared responsibility model understood	Configuration and change management

Cloud operations

| DevOps and automation | Cloud operational processes and run books |

Migration factory offering	Scan	Assessment	Workload owner buy-in or alignment

e2e test	Migration execution	Migration support
