

Injio Go Intranet in 8 weeks

Cut through the complexity of intranet projects with a fixed-price, 8-week program that delivers speed without compromising on quality.

Service Overview

A structured, 8-week engagement that takes you from discovery to launch. Using SharePoint Online, our Injio Go platform, and Microsoft 365 best practice, we deliver a modern, engaging intranet that is fast to deploy, simple to manage, and designed to grow with your organisation.

Why It Matters

Intranets often stall due to lengthy timelines, hidden costs, or overly complex builds. Our 8-week program removes the uncertainty. You get a clear scope, fixed price, and proven approach — so you launch quickly and with the right foundations for long-term success.

What's included

- Discovery and design workshops to align business needs and user experience
- Rapid configuration of SharePoint Online and Injio Go modules
- Content and governance setup for structure and ownership
- Administrator and content author training
- Launch support and two weeks of hypercare post-go-live

Outcomes for your organisation

- A polished, mobile-friendly intranet in just 8 weeks
- Clear governance and structure for long-term confidence
- Faster, easier content publishing and search in SharePoint Online
- A scalable foundation you can extend with Microsoft 365 and Injio Go when ready

Duration: 8 weeks

Investment: from \$27,000
