

Intranet Branding Refresh

Utilise the latest design capabilities to keep your intranet fresh, modern, and engaging

Whether you're launching a new brand or just looking for a freshen up, this engagement will modernise your SharePoint Online modern intranet site with an updated design and refreshed branding, using the latest design enhancements from Microsoft and best practice.

We'll deploy the SharePoint Brand Center (included in your SharePoint licensing) providing you with a central hub for managing your organisation's brand across SharePoint sites – ensuring consistency, control, and efficiency.

Over 2 workshops we'll discuss your brand and design requirements deploying the brand center and creating a new homepage design (in your tenant). We'll iterate on this design before launching your 'new look'.

What's included

- Homepage redesign and layout refresh
- Brand center implementation (centralised brand management solution from Microsoft)
- Updated colours, fonts, and imagery aligned to brand guidelines
- Navigation and menu optimisation
- QA testing and rollout support

Outcomes for your organisation

- A visually appealing, modern intranet and homepage
- Stronger alignment to your brand
- Improved usability and employee engagement
- Renewed interest and adoption across the organisation

Duration: 2-3 weeks

Investment: From \$7,500 ex GST
