

Dynamics 365 Business Central Assessment

*Is Your Business Central System Delivering
Maximum Value?*

Western Computer's comprehensive evaluations are designed to uncover process gaps, streamline operations, and enhance your use of Business Central across departments like Sales, Pricing, Logistics, Forecasting, and more. Whether you're troubleshooting inefficiencies or planning for future growth, we'll help you optimize your investment.

What's Included in the Assessment:

Sales Process Optimization: Review quote-to-cash workflows, contact syncing, and outcome tracking to accelerate your sales cycle.

Pricing & Lead Time Accuracy: Assess pricing structures, lead time calculations, BOMs, and planning tools like StockIQ for improved speed and accuracy.

Training & Best Practices: Modernize delivery planning, shipping methods, and legacy tool usage (e.g., Lanham) with updated best practices.

Warehouse & Logistics Review: Evaluate warehouse layout, consignment processes, and sandbox-to-production consistency to ensure operational harmony.

Forecasting & Demand Planning: Improve demand responsiveness through smarter forecasting methods integrated into your daily workflows.

Stakeholder Collaboration: We work with IT, Sales, Engineering, and Finance teams to ensure cross-functional alignment and relevant outcomes.

Technical & Reporting Enhancements: Refine replenishment settings, system documentation, and reporting structures for increased transparency and control.
