ERP Assessment for Food & Beverage Manufacturers

Modernize Operations, Ensure Compliance, and Scale Confidently with Microsoft Dynamics 365 Finance & Supply Chain Management

Western Computer's ERP Assessment is purpose-built for food and beverage manufacturers seeking to replace outdated systems, improve compliance, and gain real-time visibility across production and supply chain operations.

Whether you produce packaged goods, specialty items, or perishables, our expert-led engagement provides a tailored roadmap to help you reduce waste, streamline fulfillment, and respond to market changes with speed and accuracy.

What's Included:

Statement of Work (SOW): A detailed scope document outlining:

- Modules to be implemented
- Identified integrations
- Process and system gaps
- Recommended Western Computer team roles
- Required client-side resources

Estimated Cost (Excluding Development: Transparent pricing aligned to your business needs and system complexity.

Timeline Estimate: Suggested implementation timeline based on project scope and internal availability.

Tailored Demo: Customized walkthrough of Microsoft Dynamics 365 F&SCM and Azure solutions built around your specific food and beverage processes.

What We Assess:

- Current ERP architecture and workflows
- Production planning and material handling
- Inventory, warehousing, and supply chain processes
- Compliance and quality management (FDA, HACCP, GFSI)
- Forecasting and demand planning
- EDI integration with retail and grocery partners
- System gaps and opportunities for automation
