

Wharfedale Announces Migration Services for SAP S/4HANA® in Azure for its Customers in North America

Wharfedale Technologies Inc. (WFT Cloud) is a leading cloud transformation consulting firm in support of SAP® solutions, specializing in cloud migration to public cloud. Today, Wharfedale announces [migration services for SAP S/4HANA®](#) in Microsoft Azure for its North American customers to help them simplify their landscape and become more agile.

PRINCETON, N.J. ([PRWEB](#)) February 15, 2018 -- [Wharfedale](#), a strategic Gold Partner with Microsoft Azure Cloud specializing in helping customers migrate to SAP S/4HANA® in Azure, today announces migration services for SAP S/4HANA for its customers in North America.

[SAP S/4HANA](#) is a real-time enterprise resource planning suite for digital business. It is built on an advanced in-memory platform, SAP HANA®, and offers a personalized, consumer-grade user experience with SAP Fiori®. Deployable in the cloud or on premise, SAP S/4HANA can drive instant value across all lines of business – no matter the industry or business size.

Wharfedale’s extension of its service portfolio to include migration to SAP S/4HANA will help customers to achieve five key business benefits:

- Performance
- Agility
- Simplicity
- Reduced total cost of ownership (TCO)
- Innovation

Wharfedale Technologies (WFT Cloud) is among the few partners to add migration services for [SAP S/4HANA in Azure](#) service offerings. Besides harnessing the power of SAP S/4HANA Cloud internally for its digital transformation journey, Wharfedale has significantly invested in building templates, accelerators and proof of concepts (POCs) to support rapid and cost-effective deployment of SAP S/4HANA in Azure for its clients. Working in collaboration with its clients, WFT Cloud will architect, implement and manage SAP S/4HANA Cloud deployments to help maximize value and lower TCO.

Praveen Gadura, executive vice president of Wharfedale Technologies, said, “We are excited to work with Microsoft Azure in driving the [digital transformation journey](#) in Azure for our clients. Leveraging extensive consulting abilities, profound industry knowledge and cloud expertise, Wharfedale will help clients jump-start their migration to SAP S/4HANA Cloud. The joint strategic partnership with Microsoft will strengthen Wharfedale Technologies’ portfolio of services and help reinforce its position as a preferred partner for clients who are seeking to migrate to SAP S/4HANA in Azure.”

Wharfedale’s Center of Excellence for SAP S/4HANA includes vertical and domain specialists to engage with customers by helping them identify the most effective roadmap for adopting SAP S/4HANA, while performing successful implementation and ongoing support. Wharfedale CEO Ganesh Radhakrishnan commented: “We are pleased that Wharfedale is now offering SAP S/4HANA migration services in Azure. This will help our customers accomplish the best business benefit on their investments in SAP software.”

Wharfedale has the expertise and flexibility to manage multifaceted SAP workloads simply and securely in the Azure environment, which can be performed on demand and quickly. Wharfedale's automated Azure integration allows services to be ramped up or down as needed. Wharfedale is among the first to implement SAP production and non-production software landscapes (250+ servers) on public cloud.
