## AI cost control in detail

## Abteilungsbudget & Limitverwaltung

Kostenaufschlüsselung nach Abteilung und Modell

Alle Abteilungen Entwicklung Marketing Vertrieb

Gesamtkosten

€10.70

Budgetnutzung

Abteilung	Kosten (€)	Budget (€)	Budgetnutzung	Status
Entwicklung	€5.20	10 <input type="text"/>	 52%	Moderater Verbrauch
Marketing	€3.50	8 <input type="text"/>	 44%	Niedriger Verbrauch
Vertrieb	€2.00	5 <input type="text"/>	 40%	Niedriger Verbrauch

## Features

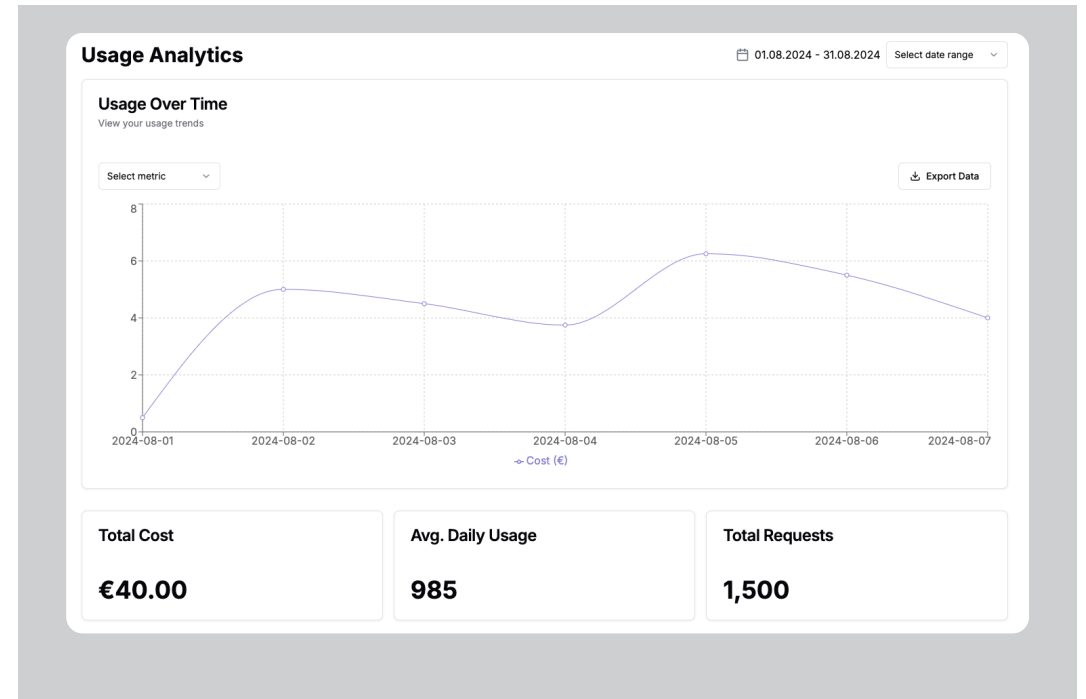

# Managing your AI budgets & limits

Manage the AI budgets of your user groups and users centrally. Define budget limits for departments, applications, projects, or individual users. Distribute your AI budgets according to the needs of your company or organization and avoid unplanned costs.

## Features

# Monitor & analyze your AI costs

Monitor your AI costs and the budget status of your users clearly and in real time. Get monthly cost reports for your internal billing processes. Analyze your AI consumption based on your user groups, users, and budgets.

## Features

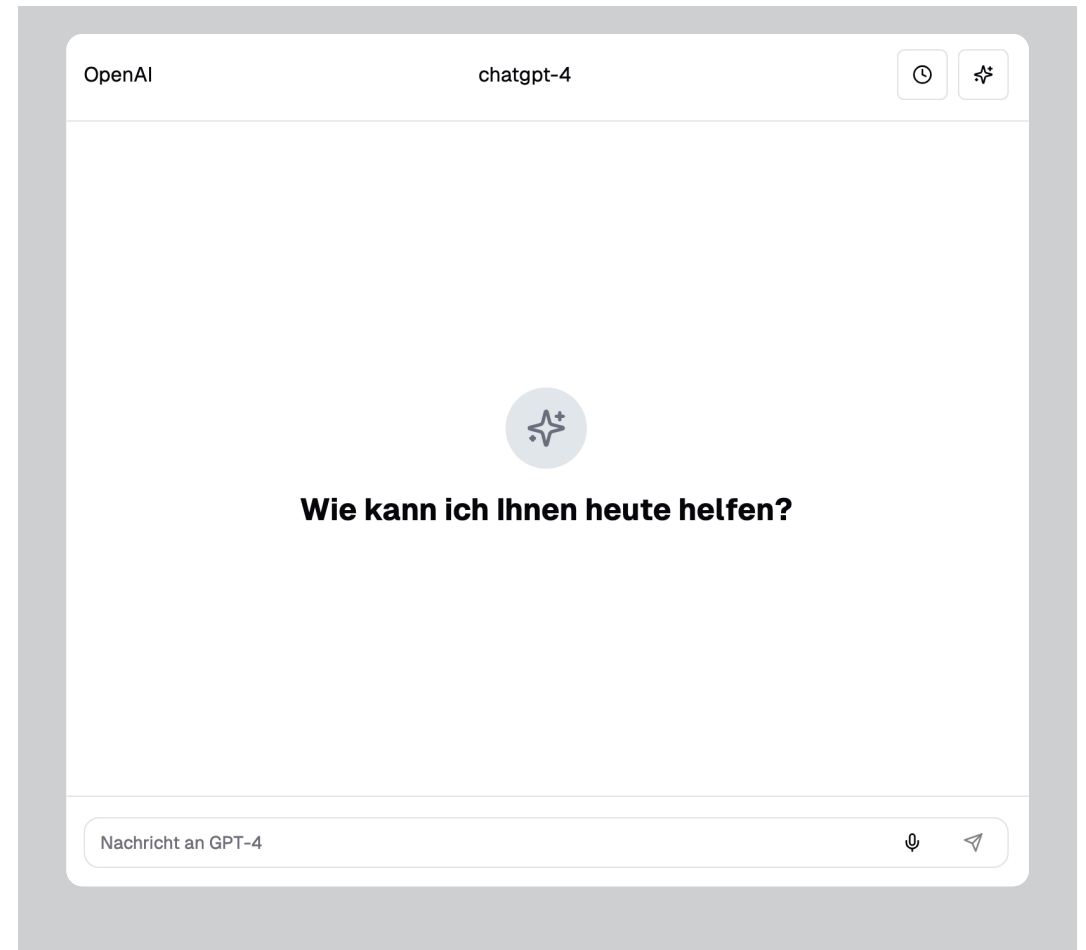

# No-code integration with your AI solution

Connect Token Control to your AI solution through our transparent plug & play approach. Simple and without additional development effort.

## Features

# Out-of-the-box integration with white duck PrivateGPT

With our PrivateGPT chat, you get a flexible AI chat. Integrates with your company data and enterprise-grade security. Integrated and directly usable with Token Control.
