

Active Directory (AD) to Entra ID Migration Solution

Windows Management Experts
PROFESSIONAL SERVICES

Microsoft Entra ID is the latest evolution of Microsoft cloud-based identity and access management (IAM) solutions.

Windows Management Experts (WME) develops a comprehensive migration plan to seamlessly transition user identities from on-premises Active Directory (AD) Hybrid to cloud-native Entra ID (formerly Azure Active Directory). This supports your organizational goals of adopting Directory Services as a Service (DSaaS) and reducing on-premises infrastructure.

Overview of the Migration Services

Analyze Existing Infrastructure

- Assess your AD setup, including users, groups, and devices.
- Identify dependencies & applications relying on AD.

Plan the Migration Strategy

- Decide whether to perform a staged migration or a cut-over approach.
- Consider factors like user impact, downtime, and data migration.

Set Up an Azure AD Tenant

- Create an Entra ID tenant if you haven't already.
- Configure custom domains and verify ownership.

Migrate Users & Groups

- Sync users and groups from on-premises AD to Entra ID using Azure AD Connect.

Configure Applications & Services

- Set up coexistence with legacy apps on-premises using Microsoft Entra application proxy.
- Update applications to use Entra ID for authentication (up to 5 legacy apps).
- Configure modern authentication for LOB apps to use Microsoft Entra ID for authentication.

PROFESSIONAL SERVICES

Configure Devices and Conditional Access

- Evaluate your existing devices (up to 40).
- Ensure devices run Windows 10 or later (compatible with Azure Entra join).
 - Set up Windows automatic Intune enrollment.
 - Registering devices as an Autopilot device.
- Set up conditional access policies to control device access based on conditions (e.g., location, compliance).
- Define policies for registered devices to ensure secure access.

How We Coordinate With The Client

We establish an escalation path with collaboration.

Discuss high-level schedule and goals.

Weekly project status collaboration

Identify immediate critical path items for planning.
