Fully Automated Active Directory to Entra ID Migration

Entra ID is the next generation of Microsoft's cloud-native identity and access management (IAM) solutions.

At Windows Management Experts (WME), we deliver a fully automated migration solution to efficiently transition your user identities from on-premises Active Directory (AD) to cloud-based Entra ID (Previously called, Azure AD). This approach accelerates your organization's shift towards Directory Services as a Service (DSaaS) and minimizes your reliance on outdated and expensive on-prem infrastructure. Ultimately, you can develop a more agile and scalable tech environment.

Fully Automated AD to Entra ID Migration Service
An Overview

Get a fully automated process for Entra ID migration instead of what used to be semi-automated. We leverage Intune to easily initiate a migration, whether it's pushed centrally or kicked off by the user from the Company Portal. This way, it becomes a seamless and quick path for remote users to migrate. We also offer post-migration solutions to make things even smoother for you.

Step-by-Step Guide to a Smooth Entra ID Migration

✔ **Take Stock of AD Environment**	✔ **Map Out Dependencies**	✔ **Plan the Migration**	✔ **Focus On Details**	✔ **Set Up Entra ID**
Check out user accounts, groups, and devices in your current setup.	Find those critical apps linked to AD to keep things running smoothly.	Choose whether to go step-by-step or all at once based on what works for you.	Keep an eye on user experience, downtime, & data safety throughout the process.	Get custom domains sorted and ensure everything aligns with your business goals.
✔ **Sync Identities**	✔ **App Connections**	✔ **Upgrade Legacy Apps**	✔ **Enable Modern Authentication**	✔ **Ready Your Devices**
Use Azure AD Connect to bring users/groups into Entra ID, smooth and seamless.	Hook up on-prem apps using Microsoft Entra's application proxy.	Refresh up to 5 older apps to use Entra ID for modern, secure sign-ins.	Let Entra ID handle access for business apps with advanced security.	Make sure up to 40 devices are good to go with Entra ID and Windows 10+.
✔ **Intune Enrolment**	✔ **Set Conditional Access**	✔ **Secure Your Devices**		
Auto-enroll devices and set them up as Autopilot devices for easy management.	Control device access based on location and compliance rules you set.	Create policies to keep everything secure and compliant during migration.

Fully Automated Active Directory to Entra ID Migration

POST-MIGRATION OPTIMIZATION

Once everything's in place, we make sure your system stays up and secure with a few clever tweaks.

01
User Reassign Made Easy

Reassign primary users automatically—quick and painless, no headaches.

02
Admin Password Reset

A quick script to refresh temporary admin passwords, keeping things secure until LAPS takes over.

03
Clean-Up Duty

Automatically clear out migration data after 90 days - no clutter, just clean.

How We Coordinate With The Client

01 • • •
Set up clear communication channels and escalation paths.

02 • • •
Agree on project goals and timelines.

03 • • •
Share weekly progress updates.

04 • • •
Focus on critical tasks to keep the project on track.
