Cognos to Power BI Migration Services

Migrate from Cognos to Power BI easily with less risk, and save up to 30%.

Migrating from Cognos to Power BI can be a foundation of digital transformation. It also helps mitigating the challenges for enterprises due to its escalating cost, performance constraints for large datasets, steep learning, and increased maintenance efforts.

WinWire, an exclusive Microsoft Solutions Partner, helps businesses migrate easy-to-use Power BI dashboards leveraging all data sources. Our Power BI services, tools, expertise, and automation frameworks will help you create custom visualizations and build interactive dashboards at pace while reducing migration costs and risks.

Accelerate Cognos to Power BI Migration with WinWire

WinWire's Win with Power BI migration accelerator enables enterprises to adopt the industry's best visual analytics experience on Power BI. We enable seamless and rapid migration from Cognos, leveraging analysis automation toolset and best practices, and reducing licensing costs by up to 40%.

Cognos Analytics metadata are extracted, stored in a database, made available for accelerated analysis.

The analysis outcome determines the complexity, migration strategy, efforts, ROI, and execution plan.

The analysis helps model consolidation, reducing Power BI semantic layers & rebuilding costs significantly.

Migration Process and Accelerator

Business Value

- **20% – 25%** reduction in semantic model rebuild efforts.
- **25% – 30%** reduction in dashboard build / conversion efforts.
- Innovative metadata-driven accelerator for environment analysis.
- Embedded insights within apps/processes.

Get started with Cognos to Power BI Migration
