

MicroStrategy to Power BI Migration Services

Accelerate the migration from MicroStrategy to Power BI & achieve up to 30% cost savings.

Migrating from MicroStrategy to Power BI provides organizations with a modern, cloud-enabled analytics environment featuring advanced visualizations, real-time insights, and scalable self-service analytics. This transition enhances collaboration, delivers intuitive data exploration, streamlines data management, and supports a more cohesive business intelligence strategy.

Accelerate MicroStrategy to Power BI Migration with WinWire

WinWire's **"Win With Power BI" accelerator** streamlines the shift from MicroStrategy, enabling enterprises to unlock the full potential of **Microsoft Fabric and Power BI** with ease. By leveraging automation, proven toolsets, and structured frameworks, WinWire accelerates migration by up to **40%**, delivering faster insights and a seamless transition to an industry-leading analytics experience.

- MicroStrategy metadata—including Dossiers, Reports, and Documents—is extracted, stored in a database, and analysed.
- MicroStrategy features in the environment, such as Metadata Schema Objects, Intelligent Cubes, Dossiers, Reports, Metrics & Advanced Expressions, serve as critical inputs for migration planning
- The analysis determines the complexity, migration strategy, required efforts, ROI, and execution plan.
- Additionally, the assessment helps consolidate data models, significantly reducing the rebuild efforts of Power BI semantic layers.

Survey Assessment on MicroStrategy Landscape Scope

Covering source systems, user community, challenges, future business need...

Cloud Readiness Scoring Model

15+ parameters for customization

MicroStrategy Metadata Analyzer

MicroStrategy Logical Model, reports and dossiers

Business Case - TCO and ROI Model

Parameters for problem definition, Implementation, Consultants, Business Benefits

Business Value

Up to 25% reduction in semantic model rebuild efforts

Up to 30% reduction in report and dashboard conversion efforts

Metadata-driven accelerator for comprehensive environment analysis

Enhanced productivity & faster insights with Copilot-powered self-service analytics

4 Weeks MVP – Migrate MicroStrategy to Power BI

Our MVP evaluates your existing MicroStrategy landscape, laying the foundation for rationalization, optimization, and a seamless transition to a modernized Fabric-Power BI experience.

Analysis

- Assess the 4 MicroStrategy dossiers/reports identified for MVP execution
- Understand 1-2 MicroStrategy data models, data sources & visualization UX for the identified assets
- Explore potential for consolidation & rationalization
- Validate technology environment access
- Kickstart the MVP build

Build & Test

- Define Power BI standards & validate them with the client
- Build the semantic model in Power BI
- Design visualization features using UX best practices
- Develop reports and dashboards in Power BI
- Data visualizations and reports from Power BI and MicroStrategy are cross-checked & verified for accuracy & consistency.

Demonstrate

- Showcase the converted reports & dashboards
- Gather feedback and provide updates
- Conduct knowledge transfer sessions
- Discuss a broader BI conversion strategy
- Present a detailed migration roadmap

Duration : 4 Weeks

Accelerate Your MicroStrategy to Power BI Migration Today! Seamlessly transition your analytics with expert guidance. **Get Started Now!**
