- Network socket : 3 on the wall, 1 entrée de salle (RoomPanel), 1 dans meuble ou baie.
- Passage de câble :

Good to Know

With a single tap on the touch controller, your Teams video conference can begin.

If you wish to use a video conferencing system other than Teams, you will need to connect the USB-C cable to your user PC. This will allow you to access all of the audiovisual elements in your room.

COMEX ROOM

Vue d'ensemble

Hardware

1. Panoramic display 21:9 5K JUPITER 105" 700 cd/m² wall mounted
2. Huge all-in-one video bar
3. 2x Extra PTZ camera 4K

5. 2x Line array speakers YAMAHA VXL1B-16P
6. Touch controller

Technical

- CFO : 2 (behind display) + AV rack 2 CFO extra (or technical ceiling)
- CFA : 1 (behind the display) + AV rack 2 CFA extra (or technical ceiling)

Good to Know

One touch of a button and my Teams meeting get started. No matter the quantity of equipment in the room, it just starts.

For any non-Teams meetings, just plug the USB-C. It would be less fun but it is still going to work.
