Self-service migration solution powered by intuitive UI

Microsoft Azure

About Cloud Data Warehouse Readiness Solution:
An Agile and scalable data migration to Cloud solution which can be carried out in just a few clicks. It is an end-to-end self-service solution that accelerates migration of data warehouse from on-premise to Cloud. It provides an intuitive user interface that can be used by business users.

WHAT WE OFFER

The solution is platform and cloud agnostic for data migration with zero downtime, in an accelerated, secure and efficient manner. It offers optimized and governed migration. Secure migration is ensured by data in transit through SSL, data at rest using KMS keys or SSE

It analyses existing data warehouse prior to migration to a new platform. It has a Knowledge repository for target optimization & scalability, data remediation & migration module followed by data validation Ensures data security enabled through encryption

It offers functional excellence through multi-cloud capability, script generator for CLI based execution, referential integrity based recommendation, partition vs column based migration flexibility and the "Pick up where you left off" feature

The solution is powered by Wipro's patent-pending framework titled – 'System and method for database migration with target platform scalability'. There are 8 ready to use migration modules available

Cloud Data Warehouse Readiness Solution helps in one touch migration coupled with a source analyzer, secured data transfer & performance optimizer with an Intuitive UI. It helps in 50-60% productivity improvement by automating end-to-end data movement, 40-50% improved TCO & 40-55% reduction in time-to-market.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

Be future-ready

Continuous innovation from Microsoft supports your development today and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise-grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

Build on your terms

You have choices. With our commitment to open source and support for all languages and frameworks, you can build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support for Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90 percent of enterprises globally.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With its $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.
