

Minimizing waste and securing supply chain

Wipro Smart Track Solution is a cutting edge IoT Platform transforming supply chain security, compliance and cold chain wastage with geospatial alerts, breach notifications in the event of a temperature excursion or tampering /counterfeiting attempt.

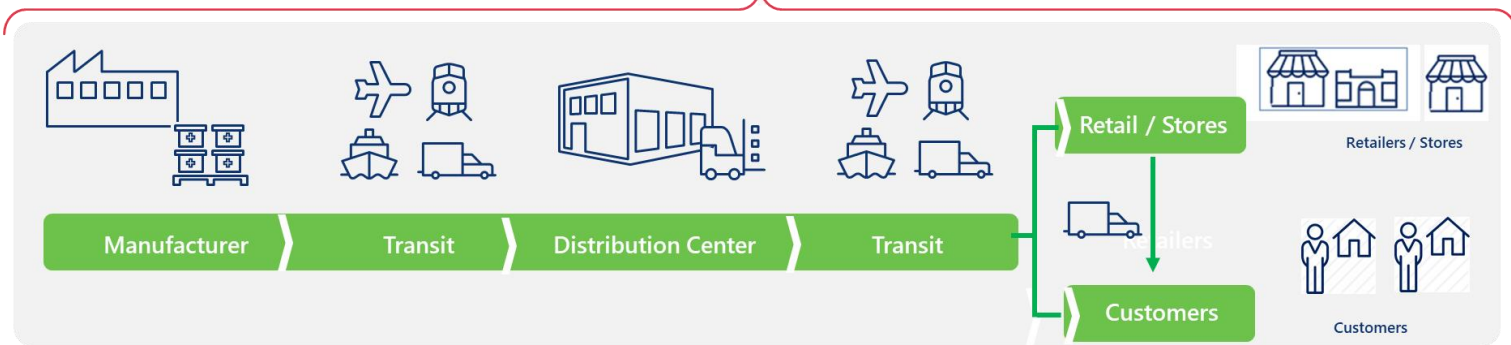

Enabling the shipments with IoT

Dashboard

Shipment location and handling status is viewed here

Temperature is monitored through each leg of the journey, improving actionable insights.

A high degree of automation offers great improvement in operational efficiency.

Real-time analytics, alerts and dashboards provide supply chain visibility.

Reduce waste
Helps minimize product/produce spoilage during cold chain transportation with real time temperature and humidity monitoring.

Traceability to prevent food Fraud
Improve traceability throughout the entire supply chain and with quick notifications of issues if they arise.

Preserve brand reputation
Makes sure products are kept at optimal condition during transit and helps protect against counterfeit products entering the system.
