

Uncover the Unknown: Data Governance, Compliance and Insights

Mitigate risk and add value with the only platform purpose-built for collaboration data.

TRUSTED BY ENTERPRISES IN EVERY VERTICAL

IT, PRODUCT DELIVERY AND CHANGE MANAGEMENT

Satisfy GRC Requirements

Fulfill obligations to key Governance, Risk & Compliance (GRC) stakeholders via one vendor, thereby reducing the total cost of ownership

Satisfy Reporting Requests

Provide reports on topics, behavior, sentiment and more to inform data-driven stories for leadership

INFORMATION GOVERNANCE AND DATA PROTECTION OFFICERS

GDPR/CCPA Compliance

Handle Data Subject Access Request and Right to Erasure obligations as established by the GDPR and/or CCPA

Bi-Directional Data Retention

Dynamic Chat/File retention and information governance — remove from both the archive and the platform including for specific channels, sources (channel vs DM) and individuals

eDISCOVERY AND FORENSICS

Collection and Archive

AI-enriched, immutable archive, specifically built for collaboration conversations and files; captures edits, deletions and conversation context

ECA & Data Visualization

Leverage topics and big-data analysis to surface case analytics, participants and/or channels

Legal Holds

Satisfy the need to create and release legal holds, including surrounding conversation context

Discovery and Export

Simple, efficient eDiscovery built for collaboration conversations — quickly filter to find the needle in the haystack

SECURITY AND COMPLIANCE

Monitoring & DLP

Content monitoring and DLP (Tombstoning) — remove accidental or malicious sharing of PHI/PII/PCI and other confidential information

Insider Threat

Automatically enforce Acceptable Use policies for all populations, including regulated and BYOD employees, and report on violations or undesired behavior

Maintain Compliance

Policy-based enforcement of industry and company regulations, such as HIPAA, FINRA and others

HR, CORPORATE AFFAIRS AND GLOBAL COMMS

Reputation Management

Continuously measure conversations for pockets of toxicity or undesired behavior, allowing your organization to address swiftly and appropriately

Sentiment Analysis

Detect changes in your organization's psychosocial and cultural health with the industry's most accurate sentiment model for digital enterprise communications

VoE, Culture & Topic Reporting

Understand topics or concerns that are top-of-mind for employees, such as corporate announcements or union activity, and surrounding sentiment
