Supercharge your Business Processes with Desktop Automation

Powered by Microsoft Power Automate

Power Automate

withum

Overview

- Withum's Digital and Technology Transformation Team specializes in rapidly building business solutions using the Microsoft Power Platform.

- Our Desktop Automation Solution is built on the Power Platform and delivers rapid time to value.

- This solution allows you to break free from repetitive manual tasks, standardize processes, and reduce manual errors.

withum+

Addressing Pain Points

- Legacy systems often don't talk to each other or to modern cloud systems, requiring manual transfer of data.

- Employees want to feel their work is meaningful and impactful, and don't like repetitive manual tasks.

- Many companies are facing staff shortages and need to find ways to 'do more with less'.

Withum Provides...

- Automation of several manual processes that show the greatest potential for ROI
- A proven methodology of increasing business process efficiency through automation.

ENVISION	ENACT	EMPOWER

ENVISION
- Analyze current process pain points and tools.
- Facilitate cross-functional discussions to document ideal future state.
- Evaluate organizational readiness to automate key processes.
- Plan an implementation roadmap and establish success metrics.

ENACT
- Assist in the selection of two to three automation candidates.
- Create Desktop and Cloud automations for each.
- Deploy, test and train your staff to maintain the automations

EMPOWER
- Review Reporting for your Desktop and Cloud flows to determine health and usage.
- Assist in evaluating the ROI for deployed automations
- Plan for next steps based on automation roadmap

withum
