A proven methodology of deploying the Microsoft Center of Excellence (CoE) Starter Kit

ENVISION

- Review your current deployments and plans focused around the Power Platform
- Facilitate cross-functional discussions to document ideal future state.
- Evaluate organizational readiness to govern the Power Platform.
- Plan an implementation roadmap to establish your Center of Excellence.

ENACT

- Deploy components of the CoE Starter Kit and set up Managed Environments
- Conduct security and application life-cycle management workshops
- Configure workflows to automate processes like approvals and notifications.

EMPOWER

- Communicate policies and procedures to core stakeholders
- Train your Low-Code Developers
- Evaluate success metrics defined from the envision phase
- Gather continuous improvements and identify additional customizations to streamline your organizational processes.

Add-on Services

- Document/data migration
- Power BI dashboards for executive reporting
- Integration with other line-of-business applications like CRM or financial systems for automated payment processing
- Post-launch Power Platform adoption and support
- Comprehensive Microsoft 365 subscription and management services

Withum Experience

When it comes to Microsoft 365 and ensuring adoption, you need an experienced partner who has helped professional services and government contract organizations successfully modernize their infrastructure and transition to a productive Cloud environment. With our Contract Management solutions, you get a ready-to-go package tailored to your needs that can evolve as your business grows.
