

## Your Living Intranet in Microsoft Teams Powered by News & Viva Connections

**145 Million**  
Teams Daily active users  
as of March 30, 2021<sup>1</sup>

**Up to 8 Hours**  
Per week reclaimed  
by not context switching<sup>2</sup>

Renew communications, culture, and knowledge management across your organization by building an Intranet alongside chat, meetings and files that employees use everyday within Microsoft Teams.

### An Intranet that employees look forward to using

#### One source for work and communication

Meet users where they collaborate, chat and meet in Microsoft Teams, on any device.

Create communications once and distribute to Outlook or Teams chats.

Unify frontline workers with community building and knowledge management.

#### Trustworthy content, without extra effort

Adopt a news-first strategy, allowing many users to easily create updates to the Intranet.

Focus HR, Finance, IT, etc. on maintaining mission critical resources.

Enhance usability through navigation that is available across SharePoint and Teams.

#### Value through action and accountability

Build an interactive Viva Connections 'Dashboard'.

Take action on tasks, timesheets, or critical systems, directly from the Dashboard on desktop or mobile devices.

Hold employees accountable for reading news or acknowledging a policy update.

Rapid time to value.

# Your Living Intranet in Microsoft Teams

A proven methodology of improving the employee experience and accelerating intranet launch and adoption.

## ENVISION

- Analyze current intranet usage and organizational goals to optimize communications, communities and knowledge management.
- Design a Microsoft Teams news-first approach to meet the organization's culture.
- Plan an implementation roadmap with adoption success metrics.

## ENACT

- Build IA and navigational structure across Microsoft Teams and SharePoint.
- Create or update Modern SharePoint sites and pages to support Intranet needs.
- Run Intranet/Viva Connections Proof of Concept (POC) with small group of employees.
- Train content creators on news-first approach.

## EMPOWER

- Deploy communications and adoption strategy.
- Build Intranet adoption dashboard in PowerBI.
- Monthly adoption success review.
- Gather continuous improvements and identify content and dashboard customizations.

### Add-on Services

- Content migration services
- Viva Insights Workplace Analytics Implementation
- Development of custom 'cards' for the Viva Connections Dashboard, including connection to third party data sources
- Development of templates for Teams or SharePoint Sites
- Integration with Withum's proprietary OneWindow intranet application.

### Withum Experience

When it comes to Microsoft 365 and ensuring adoption, you need an experienced partner. Withum has helped countless organizations successfully modernize their infrastructure and transition to a highly adoptable, productive Cloud environment.
