

Mail Pro for Copilot

Your inbox, finally under control.

Ask about your Outlook mail and get instant, intelligent summaries, priorities, and ready-to-copy drafts.

How it works

1

Open Copilot.

2

Add Mail Pro Agent.

3

Ask naturally.

Your email intelligence, designed for Outlook Copilot

No setup, no learning curve. Just clarity.

Chat with Your Emails

Talk to your inbox like a colleague. Ask questions about your Outlook mail and get instant, intelligent answers. Summarize threads, review unread messages, or get context on any sender.

Copilot Experience

Works seamlessly inside Outlook Copilot. No new interfaces to learn, just natural email conversations.

★ Instant, simple experience

Inbox overload

Summarizing key emails so you can focus on what truly matters.

Back from vacation

Giving you an instant recap of everything you missed — by project, sender, or priority.

Project follow-up

Summarizing long threads and highlighting key decisions and next steps.

Too many emails to sort

Automatically prioritizing important messages and marking what's urgent.

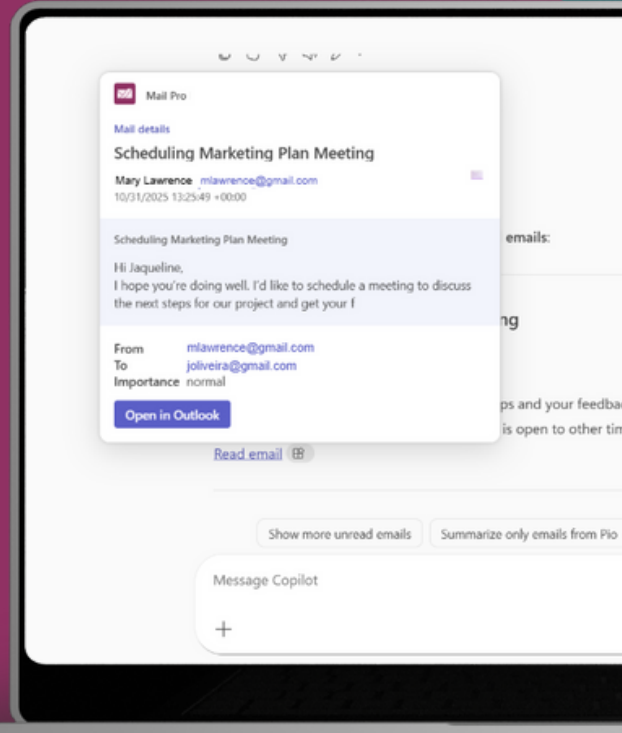

Multilingual inbox

Instantly translating incoming or outgoing messages, no copy-paste needed.

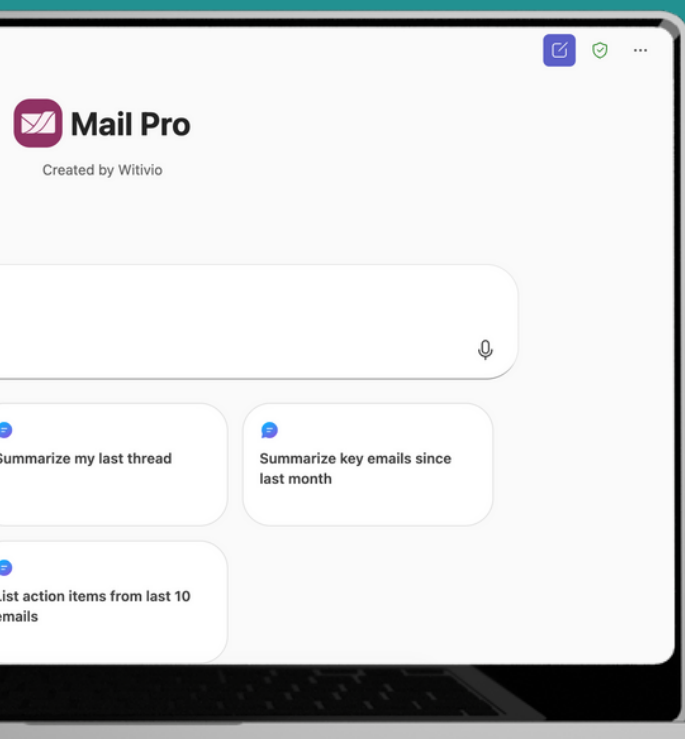

Hard to find something

Letting you search naturally ("Find the email about tomorrow's meeting").

Use Cases

Everyday ways to make your inbox simpler

Prioritize now

See Urgent / To-Do / FYI and spotlight unread criticals.

Understand fast

Summaries of long threads; translate & explain any message.

Catch up by time

Clean summaries for a day, week, or custom dates.

Find & prepare

List attachments, pull action items, and get a draft to refine.

Starter Prompts

"Focus my inbox: what's urgent and what can wait?"

"Summarize my last thread"

"Give me quick digest of my inbox"
