WIZARDcyber

Accelerate Your Data Governance with Microsoft Purview

Microsoft Purview

The Purview Quickstart Accelerator by Wizard Cyber is designed to rapidly deploy Microsoft Purview, a comprehensive, cloud-enabled data governance platform

This service ensures that your organization can quickly harness the power of Microsoft Purview to manage and govern your data effectively

Service Overview: Our Quickstart Accelerator service simplifies the deployment of Microsoft Purview, enabling your team to gain immediate insights and control over your data assets. We focus on rapid implementation, user adoption, and seamless integration with your existing systems

Key Features

✓ Rapid Deployment: Quick setup of Microsoft Purview in your environment to start managing data assets immediately.

✓ Data Source Integration: Connect up to ten (10) cloud data sources and configure initial scan schedules.

✓ User Onboarding: Onboard your first set of business users to ensure they can effectively use Microsoft Purview.

✓ Custom Classification: Implement custom classification rules and content tagging to meet your specific data governance needs.

✓ Comprehensive Training: Provide a detailed walkthrough and demonstration of Microsoft Purview's features and functionalities.

✓ Recommendations and Next Steps: Offer a summary of best practices, lessons learned, and actionable next steps to maximize the value of Microsoft Purview

Benefits

✓ Enhanced Data Governance: Gain control over your data assets with a robust governance framework

✓ Improved Decision-Making: Empower your business users with access to accurate and timely data

✓ Scalability: Easily scale your data governance efforts as your organization grows

✓ Customization: Tailor the implementation to fit your unique requirements and business goals

What We Will Deliver:

Wizard Cyber leverages its extensive experience and proven methodologies to deliver a seamless and efficient deployment of Microsoft Purview

Our team of experts will work closely with you to ensure that your data governance objectives are met, and your business users are empowered to make better decisions
