

Modernize Your Application with Wizeline

Who We Are

Wizeline is a global technology services provider with operations in the U.S., Mexico, Vietnam, Thailand, Australia, and Spain. Wizeline partners with global enterprises and scaling startups to build high-quality digital products and platforms that accelerate time to market.

Our multidisciplinary teams have experience across the entire development lifecycle. We focus on measurable outcomes, partnering with our customers to modernize core technologies, mature data-driven capabilities, and improve user experience.

Get Your Application Modernized with Kubernetes

The baseline Kubernetes App Modernization is Wizeline's consulting offering designed to deliver a secure and production-ready Kubernetes cluster on Azure, and ultimately helps your company to become more modernization-driven to enjoy the next generation of cloud applications.

The main outcomes of the 4-week workshop are an assessment of current needs, followed by a design of future container strategy. Built around the your goals, the workshops provide you with the principles and strategies for arriving at an ideal state for operating, managing and deploying services to the Azure Kubernetes cluster.

Wizeline's mission is to partner with customers to increase flexibility and scalability while improving business continuity and cost-efficiency.

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
